COUNTY GOVERNMENT OF BUSIA P.O.BOX PRIVATE BAG-50400

COUNTY TREASURY

# APPROVED SUPPLEMENTARY BUDGET 

FY 2018-2019

FOR THE

## COUNTY GOVERNMENT OF BUSIA

OCTOBER 2018

## FOREWORD

This Supplementary Budget was prepared on the basis of the County Integrated development plan (CIDP 2013-2017), Annual Development Plan (ADP FY 2018/2019), County Fiscal Strategy Paper (CFSP FY 2018/2019) and the last approved Budget of the financial year 2018/2019, which took into consideration specified strategic policies and priorities as outlined in the departmental priority areas, in line with the Governor's Manifesto, the National Big Four Agenda and Vision 2030.

The Supplementary Budget according to Section 135(2) of the Public Finance Management Act, 2012 is aimed at providing support of additional expenditure for authority to spend due to needs having arisen from particular items for which no money was appropriated in the Appropriation Act. In addition, the budget has been prepared to address the reallocation of expenditure votes in the recurrent estimates and to bring forward development expenditure that had been approved in FY 2017/2018 but were not completed.

The 2018/2019 supplementary Budget has been prepared at a period when the County Government has accumulated pending bills. It is therefore prudent that most resources shall be used to settle the ballooning pending bills while at the same time striving to complete the ongoing infrastructure works. The county also appreciates that World Bank through the Kenya Devolution Support Programme (KDSP) has approved and disbursed a total of Kshs. 553M to supplement county resources in financing the FY 2018/2019 Programmes. This will go a long way to assist in completion of major infrastructure projects especially in Health, Agriculture, Water and Public Works.

Busia County will get an equitable share of Ksh. 5.966 Billion in FY 2018/19. In addition, the County government will raise revenue from local collections estimated at Ksh.452.52 Million. Conditional allocations of Ksh. 16.93M as compensation of user charges will also be received under the health services. Other conditional allocations include Ksh. 86.6M World Bank Loan for transforming Health systems for universal health care, Ksh. 19.54M support by DANIDA on delivery of health services. The county will further receive Ksh.157.079M under Road Maintenance Fuel Levy, Ksh.61.96M as grant for development of youth polytechnics, Ksh. 47.39M under the Kenya Devolution Support Programme for capacity building, Ksh. 117M under The Climate Smart programme, Kshs. 101.07M from World Bank under the Kenya Urban Support Programme and Kshs. 20M under Kenya Urban Institutional Grant.

The FY 2018/2019 supplementary budget proposes to increase the total budget by $24 \%$ from Ksh 7.03 Billion to Ksh 8.70 Billion. This is as a result of balances brought forward in CRF of 718.22M, Disbursement of Kshs. 553M under the Kenya Devolution Support Programme for development, Kshs. 275.3M under Road Maintenance Fuel Levy Fund, Kshs. 8.6M under DANIDA, Kshs. 24.2M under KDSP capacity building, Kshs.63.7M under development of youth polytechnics and 14.39M as Contractors' retention.

However, despite the increase in the budget estimates, the county government had accumulated total commitments amounting to Kshs.1.9Billion. Austerity measures have been proposed to bridge the gap as well as address local revenue collection deficit. These include drastic reduction in domestic and foreign travel expenditures, reduction by $48 \%$ on operations and maintenance and prioritising completion of ongoing projects.

Extra budgetary provisions will include Salary deficit of Kshs.253M, Kshs. 43M for legal compensation faced by the department of health and sanitation, Kshs. 156.5M for bursaries, Kshs.50M for Lake Region Economic Bloc (LREB), Kshs.72M Car loan for County Executive Committee Members and pending bills amounting to Ksh. 755.9M.

Attached is a summary of local revenue collection as Annex 1, Itemized Recurrent Budget as Annex 2, Itemized Development Budget as Annex 3, Budget Notes as Annex 4, Kenya Devolution Support Programme (KDSP) Projects as Annex 5, Annex 6 Ward Bursary FY 2018-2019, Annex 7 Other Development Projects Pending Bills FY 2017/18, Annex 8 Other Development Projects Roll Overs FY 2017/18 and Annex 9 Other Development Projects FY 2018/19.

The County Government will put in place measures including enforcement of fiscal responsibility to create an enabling environment for the implementation of this budget.

## 1. Department of Agriculture and Animal Resources

## A. Vision

A Leading County in Food security and sufficiency for sustained livelihoods

## B. Mission

To improve the livelihoods of Busia County residents through the promotion of competitive agriculture, provision of support services while ensuring a sustainable natural resource base.

## C. Strategic Overview and Context for Budget Intervention

The Agriculture sector is the main accelerator for the County's economic growth and critical for attainment of the county's economic growth as prioritized under the County Integrated Development Plan (CIDP).

The department consists of four directorates namely: Agriculture, Livestock Production, Veterinary and Fisheries

The sector plays a key role in the overall socio-economic development and transformation of Busia County through promotion of various agricultural technologies. The sector has continued to contribute immensely in the improvement of incomes and livelihoods of the people of Busia.

The directorate of Agriculture is mandated to spearhead agricultural commodity value chain development in the County. In the previous years, the directorate implemented strategic programmes such as crop production management which has transformed farming activities resulting to higher yields. Input access projects have been undertaken whereby farmers have been provided with quality seeds and effective fertilizers hence boosting productivity. In the Financial Year (FY) 2017/2018, the department distributed maize seeds, planting and top-dressing fertilizer, 6,000 seedlings of macadamia and 22,000 seedlings of tissue culture banana to 3,450 and 5,000 farmers respectively. In addition, lime was applied to a total of 100 acres of land to improve the soil PH

The directorate has a total of 23 tractors which provides ploughing services to the residents at subsidized prices compared to private tractors. Outreach activities were undertaken to train farmers on effective and efficient farming techniques. The directorate also manages the Agricultural Development Fund which provides credit financial support to the farmers

Under the Fisheries directorate the department is committed to aquaculture development which involves construction of fish ponds in various centres across the county. This has been successful due to rolling out of Input Production Enterprises Support Programme (IPESP) that has seen the establishment of three (3) community and one (1) county owned fish hatcheries, with a total annual production capacity of 2.5 million fingerlings, and 3 cottage fish feed manufacturing plants, whose production capacity is 2,400 metric tons. In addition, 1,000 farmers were trained and inputs provided to 500 farmers to support county wide fish pond projects.

Livestock directorate promotes local poultry and dairy cow farming. 35 in calf heifers and animal feeds were procured and distributed to 35 sampled farmers, each in one of the 35 wards across the county.

The veterinary section rolled out vaccination campaign programme to control livestock diseases: specifically, the foot and mouth disease outbreak; improved Artificial Insemination (AI) services through provision of semen at subsidized costs. The cost of AI services has been reduced by $60 \%$ from an average of Kshs 3,000 to the current average of Kshs 1,200.

Despite the improvement in service delivery, the department experienced myriad of challenges. The outbreak of army worm and adverse weather condition greatly affected crop productivity leading to reduced yields by about $40 \%$ of the yield expected. Other non-rain dependent programmes progressed well as planned. The macro- economic environment was favorable to the agricultural value chains development.

To undertake these programmes, the 2018/19-2020/21 MTEF estimates for the department are projected to be Ksh.1, 587,942,772. For the FY 2018/19, Ksh. 517,823,504 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh.510, 740,127 nd Ksh. 559,379,140 respectively

## D. Programme Objectives

## CP 1 Administrative Support Services

To facilitate the coordination of programs within the department

## CP 2 Land use and Management

To Promote Prudent Land Management Practices

## 2. Department of Trade, Cooperatives and Industrialization

## A. Vision

A leading department in the promotion of Trade, Cooperative movement and investment

## B. Mission

To provide high quality services through efficient and effective coordination, formulation, and implementation of policies and programs and create an enabling environment that encourages investment while exploiting the cooperative movement.

## C. Strategic Overview and Context for Budget Intervention

The department has four directorates namely: Trade, Cooperatives, Cooperative Enterprise Development Fund, and Weights and Measures which ensures its effective and efficient service delivery.

The department's mandate is vast and covers matters of trade development, cooperative development and weight and measures. It is a leading department in promotion of trade and investments. Creates an enabling environment that promotes and encourages investment while exploiting the cooperative movement

The overall objective of the directorate of trade is to promote self-reliance amongst the citizens of Busia County, enhancement of Business, job and wealth creation through diversification, innovation, value addition, information sharing, market linkages and trade infrastructural support.

Through the directorate of trade, the department oversees and promotes cross-border trade through cross-border committees that were formed after establishment of Cross Border Traders Association in FY 2016/17. This ensures seamless movement of goods and services across the international border and across inter -county borders. It provides traders with requisite trade information to facilitate business networks.

In FY 2017/18, the directorate developed The Busia County Trade Development Revolving Fund Act 2017 to promote development of small and micro enterprises and to set up an institutional framework for coordinating loan disbursements and will be rolled out in FY 2018/19.

The Busia County Trade Development Act 2017 was also enacted to provide a mechanism for streamlining collection of taxes, charges, fees and for the grant of trade and related licenses, to provide for promotion, development and regulation of trade in the county. This will enhance the revenue collected in the various sources.

Fresh produce markets have been established in all the sub counties to enhance hygienic trade in perishable goods among the citizens. In FY 2018/19, the department will continue to rehabilitate these markets to maintain a conducive environment for business activities. Further, the department will spearhead construction of market stalls across the various wards.

The Cooperatives directorate is charged with the onus of initiating formation of cooperatives and training of members on running of the outfits. It also audits the cooperatives to ensure smooth running.

The Busia Cooperative Enterprise Fund Provides affordable credit to cooperatives for group projects or for onward lending hence increasing investment by the beneficiaries who contribute significantly to the economic growth of the county. The instituted Trade Development Revolving Fund is set to provide soft loans to individual traders

This directorate of weights and measures is charged with the mandate of ensuring fair trade practices are kept. In FY 2017/18, the directorate did acquire calibration equipment which will ensure attainment of the objective.

To undertake these programmes, the 2018/19- 2020/21 MTEF estimates for the department are projected to be Ksh. 705,324,469. For the FY 2018/19, Ksh.196, 987,080 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh. 241,898,757 and Ksh.266, 438,832 respectively

## D. Programmes and their Objectives

## 3. Department of Education and Vocational Training

## A. Vision

A globally competitive education, training and innovation for sustainable development

## B. Mission

To provide, promote and coordinate quality education and training, integration of science, technology, and innovation in sustainable socio-economic development process.

## C. Performance Overview and Background for Programmes

The department comprises of the following two directorates; Directorate of Early Childhood Education and the Directorate of Vocational Training. The sectors main objective is to offer quality, accessible and equitable education with the aim of improving enrolment and completion rate at all levels of Learning.

The department through the ECDE directorate endeavors to create child friendly learning environment by upgrading ECDE centers to model ECDE status. This will ensure provision of quality basic education which is critical in child development.

Since inception of devolution in FY 2013/2014 to date, 230 ECDE classrooms with a capacity of 30 children each have been initiated and so far, over $95 \%$ of the classrooms are complete and in use. The department intends to construct additional 25 classrooms across the county in the FY 2018/19 and the Medium Term while at the same time renovating the dilapidated ECDE classrooms constructed earlier.

Quality education is dependent on sufficient human, financial and physical resources. To ensure sufficient human resources, the department employed 439 ECDE teachers (140 diplomas and 299 certificates) in FY 2016/17. In the medium term, the department intends to employ another 450 ECDE teachers and 35 ward ECDE coordinators to enhance coordination of ECDE activities at the ward level. To address the problem of inadequate physical resources (teaching and learning material), the department has allocated funds for equipping ECDE centers and it also intends to introduce capitation to ECDE centers based on pupil enrolment.

Development of the county's economy greatly depends on human resource that is well equipped with appropriate skills and training that can manage to steer growth of industries and other sectors. The directorate aims to equip the youth with relevant skills for employment and entrepreneurship and make them drivers of change in their own lives through vocational training programmes. It is in this regard therefore that the department is working towards equipping the Vocational Training Centres with relevant tools and equipment and employing qualified personnel to impart required skills to the youth.

In FY 2016/17, 50 instructors in various trades were recruited and posted to VTCs across the county as per their needs while the County intends to recruit more instructors in the medium term. In the FY 2017/18, the National Treasury allocated the county Kshs 63,706,036 Conditional Grant for Rehabilitation and Development of Youth Polytechnics while in FY 2018/19 the county expects to receive Kshs $61,960,000$.

The department will introduce a Subsidized Youth Polytechnic Tuition to increase enrolment, equip and help in administration of all Vocational Training Centres.

Supportive measures such as disbursement of Bursaries and Busia County Education Revolving Scheme are being affected to see off many needy students in Vocational Training Centres, Secondary schools, tertiary colleges and universities get education which will definitely brighten their future and lead to a prosperous County. A Bill to effectively operationalize the Education Revolving Scheme which was launched in the FY: 2015/2016 was finalized.

In order to increase enrolment in VTCs, the department is planning to provide grants to all trainees in registered VTCs in the county. In 2018/2019, the department is targeting to offer
grants to 3500 trainees. In addition, the department intends to upgrade one youth polytechnic in each sub county to a model VTC.

Further, to support human capital development, the department intends to introduce scholarships for students admitted to study a degree course in engineering, law and medicine courses in a recognized university so as to enhance human capital development in critical fields.

The department will continue to emphasize on quality assurance function which is essential in ascertaining the quality of curriculum delivery in both ECDE and VTCs.

To undertake these programmes, the 2018/19- 2020/21 MTEF estimates for the department are projected to be Ksh 2,242,629,888. For the FY 2018/19, Ksh. 751,305,115 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh. 727,958,609 and Ksh. 763,366,164 respectively.

## 5. Department of Youth, Culture, Sports, Tourism and Social Services

## A. Vision

A socially self-driven and empowered community

## B. Mission

To mobilize the Busia Community for sustainable social protection, talent nurturing, heritage preservation and creating equal opportunities for children, Youth, women, PWDs, older persons and other vulnerable groups for a holistic growth and development.

## C. Performance Overview and Background for Programmes

The department consists of seven directorates namely; Youth, Sports, Children, Tourism, Culture, Social services and Alcoholic Drinks Control. It is mandated to mobilize Busia community for sustainable social protection, talent nurturing, and creating equal opportunity for youth, women, PLWDs, older persons and other vulnerable groups for the holistic growth and development.

In FY 2017/18, the department implemented various capacity building, empowerment and safety net programs which are key in breaking the cycle of poverty among the vulnerable members of the community who include: children, youth, women, people living with disability and the elderly.

In the Youth sector, the youth have been sensitized on health issues such as HIV/AIDS, crime, drugs and substance abuse. Entrepreneurship trainings were carried out to impart the youth with knowledge and skills on diversified investment opportunities.

The directorate of Social Services developed the Grants Policy, purchased assistive devices, tools and equipment for Persons Living with disabilities.

The department leads the County in marking the celebration of important national and international days (International Women's Day, International Day for Older Persons and International Day of Persons with Disabilities)

The directorate of Alcoholic Drinks Control did set up liquor licensing structures in all the seven sub counties, and an administrative review committee. It also operationalized The Busia Alcoholic Drinks Control and Regulations Act, and printed licensing books and materials to aid in revenue collection.

Through the sport's directorate, the department facilitated Kenya Inter-County Sports Activities (KICOSCA) 2018. This enhances cohesion and integration of various counties.

It also initiated the equipping and operationalization of youth empowerment centres at Butula, Agenga and Kamolo in Teso North Sub-county. It also facilitated purchase of land for establishing community cultural Centres at Kakapel in Teso North and Nambale.

The key priority programmes for the department are distributed across all sections within the department and they include; Development of County stadia, promotion and development of sports across the county, Operationalization of Child Protection Centres, Youth entrepreneurship and employability incubation program, equipping and operationalization of established youth empowerment Centres, Constructing, refurbishing and equipping community support Centres and community Cultural Centres, Promotion and development of local tourism in the county, Social assistance and development to older persons and PLWDs and to operationalize Alcoholic Drinks and Drug abuse Control measures.

In FY 2018/19 and the medium term, the sector aims at completing initiated programmes in various localities while establishing new projects in others areas across the County so as to ensure equitable and uniform economic growth and development.

To undertake these programmes, the 2018/19-2020/21 MTEF estimates for the department are projected to be Ksh $569,533,838$. For the FY 2018/19, Ksh. 187,543, 130 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh. 181,900,909 and Ksh. 200,089,800 respectively

## 6. Department of Public Works, Roads, Transport and Energy

## A. Vision

Attain and sustain standard road network and public infrastructure for sustainable development

## B. Mission

Provide an enabling and supportive environment for investments in the County

## C. Performance Overview and Background for Programmes

The department is made up of four directorates namely; Roads, Public works, Transport and Energy.

It is mandated to provide an enabling and supportive environment for investment in the county and sustain standard road network and public infrastructure for sustainable development. It provides both technical and supervisory assistance to other departments in implementation of projects.

The County's total road network is $1,600 \mathrm{~km}$. This consists of 169.64 km of tarmacked roads, 591.91 KM of gravel surface and 838.55 KM of earth surface roads.

Through the department, the county has realized tremendous improvement in infrastructure and in particular construction of bridges and box culverts across the entire county, opening up of new roads, murraming, and gravelling and tarmacking as well as periodic road maintenance. This has effectively led to increased accessibility to and from the markets, health and learning facilities; street lighting of major towns for improved security and embracing a 24 hour economy.

The key priorities and objectives for the department under Roads, Public Works and Transport for the FY 2018/19 include; Upgrading county roads to bitumen standards, Completion of Bus park project, Maintenance of roads construction equipment, Routine Maintenance of County roads, Construction of major drainage (Bridges \& Box Culverts) and Road safety Campaign Programme. This will increase accessibility to areas of socio economic importance, reduce travel times and vehicle operating costs.

Under the directorate of energy, the department's priorities include; Maintenance of electrical works, enhancement of Street lighting and Rural Electrification and exploration of renewable energy resources such as solar energy and biomass.

The department will endeavor in directing strategies aimed at provision of cost effective public utility infrastructure facilities and services in the areas of transport.

To undertake these programmes, the 2018/19-2020/21 MTEF estimates for the department are projected to be Ksh 2,401,256,996. For the FY 2018/19, Ksh. 1, 195,685,988 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh. 573,411,654 and Ksh. 632,159,355 respectively.

## D. Programme Objectives

## 7. Department of Public Service Management

## A. Vision

To be a benchmark for high performing, dynamic and ethical public service

## B. Mission

To facilitate a safe environment for an effective and productive work force that guarantees personal growth and sustainable development.

## C. Performance Overview and Background for Programmes

Public Service Management is charged with the responsibility of developing, advising and implementing policies, programs, projects, and initiate activities in its mandated areas of human resource and records management. This is so as to ensure efficiency and effectiveness in public service delivery and hence attainment of County and National goals.

The department conducts performance contracting and performance appraisal of all county staff which have led to improved work performance.

The department is spearheading the process of County ISO Certification to ensure that its processes procedures and documentation are of International Standards. It seeks to digitize the

County registry and information system which will pave way for easy retrieval of documents and information.

Key priorities for the department in the FY 2018/19 include; Formulation of Labour relations and Labour Laws complaint policies, employee's sensitization of the same, interpretation and implementation, Identification of training and development gaps of employees and ensuring that the same are bridged and ensuring adherence to Acts of parliament related to employment such as; Retirement Benefits Authority Act/NSSF ACT, The Employment Act, 2007, The occupational Safety and Health Act, 2007, Work Injury Benefit Act, 2007 (WIBA, Industrial Training Act-Training levy.

The department will also see realization of the following objectives; Employee Satisfaction Survey; Which is necessary in order to enhance employee relations and hence avert costly disruption of work by employees through strikes, Establish an effective and efficient Records Management System which is the back bone of county as it not only helps in informed decision making but also keeps track of the happenings of the county, Training Needs Assessment (TNA) Training that enhances employee development and capacity building, Develop Human Resource Plan and Human Resource Data Bank and to conduct Culture Change programs.

To undertake these programmes, the 2018/19-2020/21 MTEF estimates for the department are projected to be Ksh $169,548,670$. For the FY 2018/19, Ksh. 50,568,987 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh. 56,656,992 and Ksh. 62,322,691 respectively

## 8. Department of Lands, Housing and Urban Development

## A. Vision

Excellence in Land Management and Provision of Excellent, Affordable and Quality Housing for sustainable development

## B. Mission

To facilitate improvement of livelihoods of Kenyans through efficient administration, equitable access, secure tenure, sustainable management of land resource and access to adequate housing.

## C. Performance Overview and Background for Programmes

The department comprises of the following five directorates; Lands, Survey, Physical Planning, Housing and urban development. The mandate of the Sector is to provide effective and efficient services on Lands, Housing and Urban Development in the County.

Land is a vital factor of production since any development occurs in a spatial environment. The department through the directorate of Lands acquired five acres of land each at Malaba and Busia (Mundika) towns. It works in conjunction with various government agencies to ensure security of tenure for both county and private lands through acquisition of titles and fencing to avoid encroachment. The directorate has facilitated acquisition of land for investment and establishment of public amenities in the 35 wards.

The Housing directorate mandate is to ensure the department avails quality and affordable housing to residents across the county. Appropriate Building and Materials Technologies (ABMT) will be rolled out. This will be through Construction of ABMT Centres which are a Kenya Vision 2030 flagship project that requires each constituency to have an ABMT centre. Trainings of locals on affordable housing using locally available materials will be done in an effort to improve access to quality housing.

The directorate of Physical Planning and Urban Management initiated development of county spatial plan in FY 2016/17 and it is intended to be completed in FY 2018/19.Upon completion and implementation, the spatial plan will direct the county spatial environment in a bid to control and direct developments in the county. It is also responsible for management and coordination of the activities of Urban Areas and Towns. This is made possible through the Busia and Malaba town management committees.

Street lighting and mass lighting in urban centres and informal settlements is another area of priority for the department. Solar street lights have been installed in Malaba and Busia towns while Mass lighting in major trading centres in all the 35 wards has been implemented. These activities have improved security and increased the working business hours.

In FY 2018/19, the department will continue implementing its key development projects as reflected in the approved CFSP 2018. They include; Construction of governor's residence subsequently followed by the residences for the Deputy Governor and other senior government officers, refurbishment of county government houses and buildings, Installation and maintenance of mass lights in trading centers across the county

For county urban management and development, the department will undertake solid waste management services county wide, purchase skips for garbage storage and collection, construct modern retail kiosks and designate motor vehicle parking areas in major towns.

The department will also undertake preparation and automation of plot records and issuance of plot ownership documents in all market centers. It plans to prepare town development plans, carry out registration of all public land and prepare informal settlements upgrading and prevention action plan.

To undertake these programmes, the 2018/19-2020/21 MTEF estimates for the department are projected to be Ksh $1,001,203,594$. For the FY 2018/19, Ksh. 473,063,233 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh.291, 189,427 and Ksh. 236,950,934 respectively.

## D. Programme Objectives

## CP 38: General Administration and support services

To provide an effective and efficient logistical support system to improve service delivery

CP 39: County Land Administration and planning
To have sustainable land use within the county

## CP 40: Housing Development and management

To provide adequate, affordable and quality houses and buildings for county residents

## CP 41: Urban Management and Development Control

Well managed urban settlement

## CP 42: Other Development Projects

To promote uniformity in development across the county

## 9. Department of Water, Irrigation, Environment and Natural Resources

## A. Vision

A clean, secure and sustainable environment

## B. Mission

To promote, conserve and protect the environment and improve access to clean water for sustainable development.

## C. Performance Overview and Background for Programmes

To effectively and efficiently offer quality service to the public, the department is segmented into four directorates namely: Water, Environment, Forest and Irrigation.

In the previous fiscal years, through the Water directorate, the department effectively implemented its projects on community water supply works (maintenance works, emergency water supply services, community water points and water supply pipeline extensions across the county).

The department has also made tremendous efforts in increasing accessibility to clean water by residents across the county. In the FY 2015/16, 2016/17 and 2017/18, a total of 89 boreholes were drilled and equipped with solar powered pumping units. In 2018/19, 30\% of the department's development funds will be committed to maintenance works.

In FY 2018/19, the department has set to implement the following projects; Enhance protection of rivers with regard to intensive rehabilitation of the riparian reserve through reforestation, recovery and protection, Ensure effective liquid waste management through prevention of illegal discharge into the rivers and proper installation of sewer lines and sewer systems in urban areas and enhancing accessibility to clean, safe and affordable water through extensive installation of water pipelines across the county. The drilled boreholes and established water pumps will be upgraded to sustainable solar and electricity powered pumps.

Further on environment and natural resources management, forest cover increase through afforestation (riparian and community tree growing) and hill top rehabilitation programmes will improve existing cover to $4 \%$. Management and protection of wetlands and water
catchment zones e.g. Sio-Siteko will ensure vegetation cover increases exponentially thereby impacting positively on climate and water quality. Formulation of policies on natural resource exploration will ensure an exhaustive data on resource availability.

Under irrigation programme the department will propagate development of both medium and domestic scale irrigation infrastructures, dams and water reservoirs which will increase arable land under crop production hence ensuring adequate food security in the County.

To undertake these programmes, the 2018/19- 2020/21 MTEF estimates for the department are projected to be Ksh $1,559,025,245$. For the FY 2018/19, Ksh. 636,671,460 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh. 444,275,612 and Ksh. 478,078,173 respectively

## D. Programme Objectives

## CP 43: Administrative Support Services

To improve on Policy Formulation and General Stewardship
CP44: Water Supply Services
Ensure clean water supply for industrial and domestic use
CP 45: Environmental Management and Protection
To Enhance Environmental Stewardship for Sustainable Development
CP 46: Small holder irrigation and drainage infrastructure development
To enhance sustainable small holder irrigation and drainage Systems
CP 47: Forest Development and Management
To Increase Tree/Forest Cover for sustainable development
CP 48: Kenya Climate Smart Programme
To promote sustainance of natural climatic conditions
CP 49: Other Development Projects
To promote uniformity in development across the county

## 10. Department of Health and Sanitation

## A. Vision

A healthy, productive and internationally competitive County.

## B. Mission

To build a progressive, sustainable, technologically-driven, evidence-based, and clientcentered health system with the highest attainable standards of health at all levels of care in Busia County.

## C. Performance Overview and Background for Programmes

The department comprises of three directorates namely: Administration and Support services, Curative Health Services and Preventive and Health Promotion Services.

It implements its mandate through three programmes that is; General administration and support services, Curative health services, Preventive and health promotion services. These have been sub programmed into Referral services, Referral (Hospital) services, Public health systems and Primary health care with a view of fair financial distribution and function, while encouraging balanced service delivery.

Health sector is among the drivers of socio-economic change requiring huge capital outlays given its high intensive labour demand. Hence the county in collaboration with the national government and donor fund providers (DANIDA) over the years have allocated optimal funds for implementation of the planned projects and programmes.

The County has realized a transformation in the health sector due to the diligent efforts and commitment by the department to ensure effective implementation of its programmes. In terms of infrastructural development, in FY 2014/15 it spearheaded upgrading of Busia hospital to County referral status, established and constructed KMTC block before it was taken over by the national government in 2016 and upgrading of 5 dispensaries into health centre status. The county health facilities comprises of; 1 referral hospital, 6 sub county hospitals, 12 health centres, 49 dispensaries, 10 medical clinics and 3 nursing homes.

The construction, equipping and Operationalization of medical wards and theatre, has been a flag ship project for the county in the department for the past 5 year development plan (CIDP 2013-2017). These has seen improvement of in-patient services.

The department focused on increasing access to quality service delivery through operationalizing the completed health facilities and recruitment of more staff to meet the demand. Access to improved sanitation was prioritized through sanitation marketing strategy to provide access to improved sanitation in a bid to actualize sanitation rights in the constitution.

Over previous fiscal years the department invested heavily in emergency referral services through infrastructural development at Busia County referral Hospital (Accident \& Emergency block, Newborn care Unit and ICU), Ambulance service; one in each Sub County Hospital. Four New theatre blocks constructed at Khunyangu, Nambale, Sio-Port and Matayos Health Centers

A county warehouse for medicines was constructed at Matayos H/C, which provides restructuring of medicine distribution system on demand basis.

In FY 2018/19 the department has prioritized the expansion of Medical wards at Nambale, Port Victoria, Kocholya and Amukura with forty (40) bed capacity including purchase of standard medical beds. It succeeded in accessing reasonable resource allocation for purchase of essential medicines and non-pharmaceuticals that has reduced presence of stock outs in health facilities.

The department will continue to embark on access to improved sanitation at community level through Sanitation marketing strategies, with partnerships at the grass roots level. African Development Bank plans to develop sewerage works at Malaba Township to benefit close to ten thousand $(10,000)$ people, at a cost of close to Ksh. 1.8B including increased water availability.

Through Public Private Partnerships; Partners like Samsung in collaboration with AMREF health Africa are to invest Ksh.130M and 15M by K-ship in digital e-health services and sanitation upgrading in Amukura and Funyula respectively. Over $50 \%$ of the medical conditions treated at the health facilities are preventable. County sentinel HIV/AIDS prevalence is > $7 \%$ greater than the national average of $5.6 \%$. This will attract more efforts on behavioral change and communication.

The enactment of enabling legislation and regulations was fast tracked and the Health Financing Bill and Regulations, together with the County Public Health Act were enacted. County Health Services and Reproduction bills are to be operationalized in 2018/19.

Most health facilities exhibit deplorably state, therefore presenting unaesthetic to public opinion of government building. The refurbishment therefore is intended to make good of the face lift of the physical appearance, and good state of repair.

The department is set to implement the new government order on Noise and Air pollution control by acquiring calibrated standard equipment to monitor public noise emission to reasonable decibels and Air particulate assessments for controlled levels in the environments. Most if not all hospital facilities have damaged and uncomfortable beds for patients. The department will strive to provide standard hospital beds and face out old ones.

To undertake these programmes, the 2018/19- 2020/21 MTEF estimates for the department are projected to be Ksh. 5,576,464,539. For the FY 2018/19, Ksh.
1,979,519,340 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh. 1,713,307,252 and Ksh. 1,883,613,947 respectively

## 12. The Governorship

A. Vision

To be an institution of honor and excellence for a democratic and prosperous County

## B. Mission

To provide timely and quality services to the residents of Busia through efficient utilization of resources for the fulfilment of the Governor's mandate

## C. Performance overview and background for programmes

The Governorship is mandated to spearhead policy formulation; promotion of the rule of law to enhance order; resource mobilization; coordination and supervision of effective and efficient public service delivery; swift response to critical community needs during disaster occurrences; publicity, branding and public participation.

To effectively implement its mandate, the Governorship is comprised of offices of the Governor, Deputy Governor and County Secretary. To enhance service delivery, the office has three directorates namely: Public Administration, Communication and Disaster Management.

The Governor, who is the head of the County Government, chairs the County Executive Committee, which is the highest decision-making organ of the executive arm of the County Government. It's at this forum that the policy frameworks that guide the day-to
day operations of the county are formulated and equitable distribution of the county resources to all county departments, plus any other issues that positively contribute to effective and efficient public service delivery are made.

The Office of the County Secretary coordinates all the departments of the County Government and promotes effective communication of the County policies.

The directorate of Public Administration coordinates public participation to enable citizen's exercise their sovereignty in policy formulation, project planning and budgeting. It also supervises effective and efficient public service delivery, promotes the rule of law and order, submit weekly status performance reports from all village, ward and sub county units across County. These include immediate reports on disaster occurrences while preparing the community on the site of disasters to take safety measures in preparation for mitigation/relief support from the county.

The office employed and trained disaster management staff, bought a modern fire engine vehicle whose capacity is 9000 litres of water and 1000 litres of foam.

It has also trained its staff in human resource management skills and performance contracting and appraisal, established a human resource advisory committee to manage human resource related issues, developed performance contracting policy and forms, and engaged the CEC members, chief officers, directors and other staff in signing performance and appraisal contracts for FY 2016/2017.

The office provided relief to communities that experienced flooding in Budalang'i and all other communities living along Lake Victoria shores, resulting from the lake's backflow and others that experienced floods resulting from heavy rains in Nambale, Teso North and South sub counties. These communities were given food supplies, support to shift and settle in high areas, iron sheets, beddings and medical support.

To undertake these programmes, the 2018/19- 2020/21 MTEF estimates for the department are projected to be Ksh 1,204,259,626. For the FY 2018/19, Ksh. 350,686,855 has been set aside for the department. For 2019/20 and 2020/21 the projections are Ksh. 408,125,103 and Ksh.445, 357,668 respectively.

## D. Programme Objectives

## CP 55: Administrative and support services

To provide an effective and efficient logistical support system to improve service delivery

CP 56: Other Development Projects
To promote uniformity in development across the county
