# Foreword

County governments are required by law to prepare Annual Development Plan as part of the integrated plans, this is stipulated in Sections 104, 105 and 108 of the County Government Act, 2012. The plans are meant to inform the county developmental strategic interventions taking into consideration the linkages between county plans, the national planning framework and meaningful engagement of citizens in the planning process through collection, collation, storage and updating of data and information suitable for the planning processes.

Additionally, the ADP as outlined in section 126 of the Public Finance Management Act (PFMA), 2012 is one of the plans that form the county planning framework. The ADP 2024-2025 provides the basis for implementation of the County Integrated Development Plan in this case (CIDP 2023-2027) and act as a guide in resource allocation to priority programmes and projects for the FY 2024-2025.

The preparation of this document involved working closely with the various County departments' technical people, incorporating inputs shared by the members of the public, development partners and the County Budget and Economic Forum (CBEF).

Further, the preparation of ADP 2024-25 got great guidance from the major County and National Government Policy documents particularly the Busia County Integrated Development Plan (2023-2027), the draft fourth Medium Term Plan-MTP IV (2023 – 2027) of the Vision 2030, and most importantly the governor's manifesto. Of importance to note, under ADP 2024-25 the big dream of the Busia County aggregation and industrial park (CAIP) will continue being implemented.

To keep track of the progress, this plan provides for a monitoring and evaluation matrix which guides departments while tracking the implementation progress of the priority programmes/projects in a bid to promote informed and evidenced-based decision-making in the County. The ADP 2024-25 if well implemented, the programmes and projects will transform our economy; create wealth and employment; reduce poverty and create conducive environment for investment in Busia County.

#### Hon. Topister N. Wanyama

County Executive Committee Member- Finance, ICT & Economic Planning

# Acknowledgement

It is out of concerted efforts and consultations among different stakeholders, both directly and indirectly that the preparation of the 2024-2025 Annual Development Plan came to a successful end.

First, I wish to acknowledge H.E the Governor Hon. Dr. Paul Otuoma and H.E. the Deputy Governor Hon. Arthur Odera for providing political leadership and stewardship in development of this Plan.

I also recognize and appreciate the County Executive Member for Finance, ICT and Economic Planning, Hon. Topister Wanyama, under whose direction, support and guidance this assignment was undertaken.

We are equally indebted to County Departments in particular, the respective County Directors and other technical staff for their insights and guidance through which we got very valuable inputs and thereby adding value towards the development of the final document.

I truly appreciate the staff of the directorate of Economic Planning under the leadership of Director Korir Kelong for tirelessly working around the clock to co-ordinate, compile, edit and finalize this plan. More particularly, I most sincerely thank the following officers, Joselyne Chepkwony, Andrew Werambo, Evans Tangara, Cynthia Amaase, Getrude Nabwire, Erick Oloo, Bruno Mbalwe, Marion Tata, Maureen Barasa, Protus Makokha, Milton Bubolu and Winny Omolo.

CPA Isabella Odolo Chief Officer - Economic Planning and Budgeting

# **Executive Summary**

The county development aspirations are unpacked through the ADP which is an annual masterplan. It forms the foundation for the budget as provided for in the Public Finance Management Act, 2012. The ADP 2024-2025 forms the second year of implementation of the CIDP 2023-2027.

The ADP comprises of five chapters.

## Chapter One

This chapter provides an overview of the county in terms of demographic profiles, administrative units, and political units. This chapter also highlights socio economic and infrastructure information pertinent to the county's development, as well as the CIDP's broad priorities and strategies that will be implemented during the planned period. In addition, Chapter One explains the rationale for the ADP, presenting the legal justification for the preparation of the Annual Development Plan in accordance with Section 126 of the Public Finance Management Act of 2012. Finally, it describes how the ADP was created, detailing the steps taken to create the plan, such as stakeholder engagement and data collection methods.

## Chapter two

The chapter provides a review of sector/sub-sector achievements, challenges encountered, and lessons learned during the previous plan's implementation, with comments on any differences between the targets and achievements. The chapter also includes a tabular summary of capital project status, highlighting key milestones achieved during capital project (s) implementation. Chapter two also provides information on total payments made by the county government on grants, benefits, and subsidies during the previous ADP period (in this case, Fiscal year 2022/23) under various sectors.

## Chapter three

This chapter outlines the strategic priorities, programs, and projects for each sector/sub-sector for Fiscal Year 2024/2025. The programs and projects should address cross-cutting issues such as green growth and green economy; climate change; HIV and AIDS; gender, youth, and persons with disabilities (PWD); disaster risk management (DRM); and ending drought emergencies (EDE), among others. The chapter also provides description of significant capital projects during the plan period indicating their locations and approximate cost. Under this chapter measures to harness cross sector synergies and mitigate adverse cross-sectoral impacts of projects where necessary are highlighted.

## Chapter four

The chapter summarizes resource requirements by sector and program. It also explains how the county government is responding to changes in the financial and economic environment.

## Chapter five

The fifth chapter discusses the county monitoring and evaluation framework as outlined in the County Integrated Monitoring and Evaluation System (CIMES). The section's outline includes the following:

- a) Introduction brief description of the M&E structure in the county;
- b) Explain the type of indicators adopted to measure performance;
- c) Data collection, Analysis and Reporting mechanisms;
- d) Institutional framework adopted to monitor the programmes; and
- e) Dissemination and feedback mechanism.

## CHAPTER ONE: INTRODUCTION

## 1.1. Overview of the County

Busia is one of the 47 Counties in Kenya located in the western part of Kenya. Its headquarters is located in Busia town along Busia-Kisumu Road.

Busia is a cosmopolitan county whose residents are predominantly of Luhya and Teso ethnicity. Others include Luo, Somali, Kisii, Kikuyu, among others. Abakhayo, Abamarachi, Abasamia and Abanyala are the major Luhya sub-tribes in Busia while Teso community is a mono-tribe. The main economic activities in Busia County are agriculture, fishing and trade. Agriculture being the backbone of economy of Busia County is done majorly on small scale. Sugarcane farming is done for commercial purposes and to a lesser extend cotton and tobacco crops are planted as cash crops. Other crops like maize, beans, sweet potatoes, millet and cassava are grown for subsistence use. Livestock farming is also done to some extent.

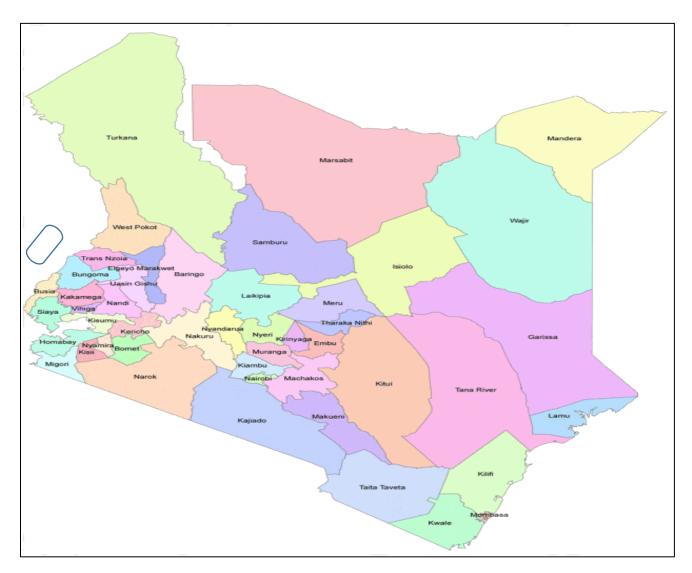

Fishing is majorly done along the southern part of the county courtesy of Lake Victoria being the main source of both Nile and Tilapia. With produce from both fish and agriculture, and building of a transshipment market, the county enjoys cross border trade along Busia and Malaba borders.

Busia County is a member of the 14 counties of the Lake Region Economic Bloc (LREB) situated around Lake Victoria and its environs. Other members are; Kisumu, Kericho, Siaya, Nandi, Kisii, Bomet, Kakamega, Bungoma, Trans Nzoia, Homabay, Nyamira, Vihiga and Migori. The main objective of the regional bloc is to leverage on economies of scale in the region thus promoting cross county trade. The Lake Region Economic Bloc (LREB) presents the socioeconomic aspirations of 14 counties in the Lake Basin Region and seeks to boldly secure and shape the region's destiny.

## 1.2. Position and Size

Busia County is one of the counties in the former Western province. It shares a border with Uganda to the west, Bungoma County to the North, Kakamega County to the East and Siaya County to the West. The County is bordered by Lake Victoria to the South West. Based on its strategic location, Busia County is an important strategic gateway to Kenya's regional neighbors in the Eastern Africa Community – Uganda, Burundi, Rwanda, DRC Congo and Southern Sudan with Busia and Malaba towns serving as designated border crossing points. The county covers 1,694.5 square kilometers (km<sup>2</sup>) at latitudes 0° and 0° 45 N and longitude 34° 25 east. The county can be accessed both by Lake Victoria from the counties of Siaya and Kisumu. It can also be accessed through road networks.

## 1.3. Administrative Units

The administrative units of Busia County are managerial and decision-making structures of the county that are used in handling socio-economic developments affecting the residents. Busia County is divided into seven Sub – counties namely Bunyala, Butula, Matayos, Nambale, Samia, Teso North and Teso South. These sub - counties are further divided into 10 divisions, 60 locations, 181 sub-locations and 120 villages. The largest administrative unit is Teso South lying on 299.6 sq. km while the county headquarters is domiciled in Busia Town, in Matayos Sub-County. Below is a table of administrative units within the county:

## Table 1: Area (KM2) by Sub County

Sub ~ County	County Assembly Wards	Divisio ns	Locations	Sub-locations	Area (sq.km)
Teso North	6	2	17	44	261.0
Teso South	6	2	13	38	299.6
Matayos	5	2	6	17	196.2
Nambale	4	1	5	14	237.8
Butula	6	1	6	21	247.1
Samia	4	1	7	19	265.1
Bunyala	4	1	6	18	188.3
Total	35	10	60	181	1695.1

#### 1.6. Demographic Profile

## 1.6.1. Population Size, Composition and Distribution

Busia County population's demographic information is distributed in terms of age, sex, settlement and projection up to the Year 2027 which are discussed in this section. The 2019 Kenya Population and Housing Census statistics forms the basis for the population projections. The county's annual population growth rate is estimated at 2.2%

#### 1.6.2. Busia County Population Age Structure

Sub~	Census (2019)			Projection (2022)			Projection (2025)			Projection (2027)		
county	М	F	Т	М	F	Т	М	F	Т	М	F	Т
Busia	69,034	73,373	142,407	73,358	77,970	151,328	77,683	82,566	160,249	79,237	84,217	163,454

 Table 4:Population Projections (by Sub-County and Sex)

Source: Kenya Population Housing and Census (KNBS)

The 2019 Kenya Population Housing and Census estimate shows that Teso South Sub County has a higher population of 168,114 with 80,484 male and 87,630 female. Bunyala Sub County has a lower population estimate of 85,976 with the population of male and female estimate is 41,465 and 44,511 respectively. Population projection estimates at end of the 2027 year still show Teso South has the highest population because of external migration into the sub-county due to establishment of schools in the area and increased birth rate.

## 1.6.3. Population Projections by Age Cohorts

**Table 5: Population Projection by Gender and Age Per Cohorts** 

Age	Census (2019)			Projection (2022)			Projection (2025)			Projection (2027)		
Cohort	М	F	Т	М	F	Т	М	F	Т	М	F	Т

TOTAL	426,252	467,401	893,653	470,167	480,207	950,374	496,361	509,181	1,005,542	513,441	528,026	1,041,466

The 2019 population estimate of Busia County was 893,653 with 467,401(52.30%) female and 426,252 (47.70\%) male. By the Year 2025, the population is projected to grow to a total of 1,005,542 that is, male (496,361) and female (509,181).

## 1.7. Overview of the County Annual Development Plan

The FY 2024/2025 County Annual Development Plan is the tenth to be prepared by the Busia County Government. It sets out the County's priority programmes to be implemented in the Financial Year 2024/2025 under the Medium-Term Expenditure Framework.

The plan covers the following broad strategic priority areas:

## 1.7.1 County Strategic Objectives:

- a) Investing in Agriculture and food security
- b) Investing in quality, affordable and accessible health care services
- c) Promote trade, investment, industry and cooperative development
- d) Infrastructure development (Including roads, water supply and Electricity supply)
- e) Investing in Education, focusing on the rehabilitation and equipping of Vocational Training Centres and Early Childhood Development Education.
- f) Enhancing governance, transparency and accountability in the delivery of public service.

To achieve the county government's development agenda, resources shall be allocated to high impact programmes and projects that will stimulate economic growth and contribute to sustainable socio-economic development. The proposed priority programmes as contained in this County Annual Development Plan (2024-2025) are consistent with the aspirations of key policy documents such as the Fourth Medium Term Plan (2023-2027) of Kenya Vision 2030, as well as the Busia County Integrated Development Plan (2023-2027).

In order to keep track of the progress and outcomes of the plan implementation, there will be need to strengthen Monitoring and Evaluation System both at the County and SubCounty level. This will further provide a mechanism for feedback on the effectiveness/efficiency in the implementation of the programmes and projects set out in this County Annual Development Plan.

## 1.8. County's Response to Changes in the Financial and Economic Environment

This section outlines the economic growth of the country, *Growth prospects, Effects of Inflation,* over the years in order to understand the economic situation under which this County Annual Development Plan was developed. The various reports by IMF, World Bank and KNBS highlighted the various economic parameters of the country and this had implication on the overall performance of the county.

- 1. According to International Monetary Fund, Global growth is projected to fall from an estimated 3.4 percent in 2022 to 2.9 percent in 2023, then rise to 3.1 percent in 2024. This is because the world is in a better place now, noting the World Health Organization's decision to end the global health emergency surrounding COVID-19, and with shipping costs and delivery times now back to pre-pandemic levels. Global inflation is expected to fall from 8.8 percent in 2022 to 6.6 percent in 2023 and 4.3 percent in 2024, still above pre-pandemic (2017–19) levels of about 3.5 percent.
- 2. Amid a global slowdown, growth in sub-Saharan Africa (SSA) is expected to decelerate to 3.6 percent in 2023 before rebounding to 4.2 percent in 2024. This is a result of big funding squeeze tied to the drying up of aid and access to private finance that hit the region.
- 3. Kenya's economy is projected to grow by 5.5 percent in 2023 and above 6.0 percent in 2024. This growth will be reinforced by the Government's Bottom-Up Economic Transformation Agenda (BETA) geared towards economic turnaround and inclusive growth. Inflation is projected to rise to 8.6% in 2023 and fall to 5.9% in 2024, driven by food and energy inflation.
- 4. As the economy recovers, extreme poverty is predicted to fall below pre-COVID-19 levels to 25.8 percent in 2022 and further to 25.3 percent in 2023.
- 5. The County has continued to put measures in place so as to address issues such as food insecurity, infrastructure development, access to affordable healthcare and improve governance and accountability. This is envisaged through allocation of more resources to address extreme poverty levels which stands at 5.1% against national 5.8% and inequalities in the County through the following key interventions; Investment in county aggregation industrial park , UHC through registration of 10,030 indigents on NHIF and rolling out of the school feeding program.
- 6. Limited resources continue to pose a challenge in implementation of County development programmes as envisaged in the County Integrated Development Plan. This however has

made the County to pursue policies that seek to expand its resource base so as to address community demands.

## 1.8.1. Emerging Economic challenges

- According to Global Risks Report 2023, the return to "new normal" following the COVID-19 pandemic was quickly disrupted by the outbreak of war in Ukraine, ushering in a fresh series of crises in food and energy triggering problems that had sought to be solved over decades. High inflation is eroding real incomes, triggering a global cost of living crisis that has pushed millions into poverty and economic hardship. Persistently high inflation which averaged over 9% in 2022 has prompted aggressive monetary tightening in many developed and developing countries. At the same time, the climate change crisis is taking a heavy toll on many countries, with heat waves, wildfires, floods, and hurricanes inflicting massive humanitarian and economic damage.
- Financing conditions have tightened sharply amid high levels of private and public debt, pushing up debt servicing costs, constraining fiscal space and increasing sovereign credit risks. Rising interest rates and diminishing purchasing power have weakened consumer confidence and investor sentiment, further clouding fast growth prospects of world economy.
- Economic growth in Sub-Saharan Africa (SSA) slowed to 3.6% in 2022, from 4.1% in 2021 and economic activity in the region is projected to further slowdown to 3.1% in 2023. Growth is estimated to pick up to 3.7% and 3.9% in 2024 and 2025 respectively. The region has been hit by multiple shocks, including weaker demand from key trading partners (especially Europe and China), a sharp increase in energy and food prices, rapidly rising borrowing costs and adverse weather events. As debt servicing burdens mount, a growing number of Governments are seeking bilateral and multilateral support.
- Public debt in Sub-Saharan Africa (SSA) has more than doubled since 2010. The war in Ukraine halted the fiscal consolidation process of many countries in the region that started in the aftermath of the COVID 19 pandemic. As countries resorted to measures such as subsidies, temporary waivers of tariffs and levies, and income support for the most vulnerable people in an effort to limit the rise of food and fuel prices-the fiscal deficit of the region widened to 5.2% of the GDP in 2022 up from the estimated 4.8% of the GDP in2021. Weak growth combined with fast accumulation of public debt has pushed the median public debt to GDP ratio from 32% in 2010 to 57% in 2022(56% in Western and Central Africa; 64% in Eastern and Southern Africa). The number of Sub-Saharan Africa (SSA) countries at high risk of external debt distress stands at 22(up from 20 in 2020).

- High inflation rates fueled by rising food and energy prices as well as weaker currencies and low investment growth continues to constrain African economies, creating uncertainty for consumers and investors. Inflation in Sub-Saharan Africa (SSA) is set to remain high at 7.5% for 2023 and above central bank target bands for most countries.
- The Kenya economy is characterized by high cost of borrowing from the domestic and external markets, high inflation and depreciating exchange rates. This combined with poor performance of domestic tax collection and preference of the domestic market for short term Government securities has resulted in increased cost of meeting Government expenditures while creating liquidity constraints in Government expenditure capacity. Therefore, debt and all basic service related recurrent and non-debt financed capital expenditures have to compete for domestically raised resources. The more spent on repaying debt, the smaller the amount remaining to provide basic services. This includes money that goes to Government ministries, department agencies (MDAs) and also the allocation going to the devolved units of Government. Therefore, there is a possibility of Government sacrificing development and social welfare programs in the face of mounting debt obligations.
- The Green Economy Strategy and Implementation Plan (GESIP) targets multiple challenges including infrastructure gaps, food insecurity, environmental degradation, climate change and variability, poverty, inequality and unemployment. Transitioning to a green economy requires significant resources in terms of finance, investment, technology and capacity building. Therefore, integration of Green Economy in the planning and budgeting processes is crucial at both the national and county level for successful implementation of GESIP.

## 1.9. Rationale for Preparation of ADP

- The plan is prepared in line with the provisions of Article 220(2) of the Constitution of Kenya, 2010 and section 126(1) of the Public Financial Management Act, 2012 which stipulate that: *Every county government shall prepare a development plan in accordance with Article 220(2) of the Constitution, that includes*
  - a) Strategic priorities for the medium term that reflect the county government's priorities and plans;
  - b) A description of how the county government is responding to changes in the financial and economic environment;
  - c) Programmes to be delivered with details for each programme of
    - a. The strategic priorities to which the programme will contribute;
    - b. The services or goods to be provided;
    - c. Measurable indicators of performance where feasible; and
    - d. The budget allocated to the programme;

- d) Payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid;
- e) A description of significant capital developments;
- f) A detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the county, including measurable indicators where those are feasible;
- g) A summary budget in the format required by regulations; and
- h) Such other matters as may be required by the Constitution or this Act.
- 2. The County Executive Committee member responsible for planning shall prepare the development plan in accordance with the format prescribed by regulations.
- 3. The County Executive Committee member responsible for planning shall, not later than the 1st September in each year, submit the development plan to the county assembly for its approval, and send a copy to the Commission on Revenue Allocation and the National Treasury.
- 4. The County Executive Committee member responsible for planning shall publish and publicize the County Annual Development Plan within seven days after its submission to the county assembly.

## 1.10. Preparation process of the Annual Development Plan

The FY 2024/2025 ADP was developed in an all-inclusive and consultative engagement with all County sectors, the public and the relevant stakeholders' participation. The identified sector priorities and strategies in the County Integrated Development Plan (CIDP) 2023-2027 were essential in developing the programmes and projects that will be implemented.

The identified citizens need, the Governors manifesto together with the Bottom-up Economic Transformation Agenda (BETA) were integrated into the Annual Development Plan (ADP) 2024-2025. The document was then presented to the executive committee for deliberation and adoption and thereafter forwarded to the County Assembly for Approval.

## CHAPTER TWO: REVIEW OF THE IMPLEMENTATION OF THE PREVIOUS ADP

This chapter provides a review of all sectors/ sub-sectors achievements, challenges encountered and lessons learnt during the implementation of the previous Annual Development Plan. During the FY 2022/2023, the following achievements were realized in various sectors of the county as outlined below;

## 1. Agriculture, Livestock, Fisheries, Climate Change, Blue Economy and Agribusiness

# 1.1. Performance Overview for FY 2022/2023 Under Crops;

- ✓ A total of 8.4 tons of certified maize seed was procured and distributed to farmers which translated to 840 acres of land being planted with a projected yield of 6,720 of 90Kg bags of maize.
- ✓ A total of 346, 50 kgs bags Top dressing fertilizer (CAN) was procured and distributed to farmers in Busibwabo ward. This aimed to increase productivity of maize.
- ✓ 700 sachets of 50 grams spider plant seeds were procured and distributed to horticulture farmers which was projected to have 70 acres of land under spider plant vegetables. The project was aimed to address micro nutrient deficiency and household incomes.
- ✓ 13 pieces of PH meters were procured during the period under review. This is aimed at assisting farmers to know their soil PH to enable them make informed decision on the kind of soil management, fertilizer application and crops to grow for food and nutrition security.
- ✓ 1,195 litres of pesticides was procured and distributed to farmers across the county. This aimed at reduction of crop loss by attack and spread from African army worm and fall army worm. Cases of army warms in the county were reported during the period under review

## **Under Fisheries**

- ✓ 459 fish farmers from 5 Aquaculture Business Development Program (ABDP) working sub counties benefited from the supply of 459,000 fingerlings; Butula (80,000), Matayos (80,000), Teso South (115,000), Samia (120,000) and Nambale (64,000).
- ✓ 3,822 (25 kg) bags of fish feeds were distributed to five sub counties as follows; Matayos 666 (25 kgs) of bags; Butula 666 (25 kgs) of bags, Teso South 957 (25 kgs) of bags, Nambale 534 (25 kgs) of bags and Samia 1000 (25 kgs) of bags
- ✓ 183,000 fingerlings and 15,000 kgs of fish feeds were supplied to small holder cage farmers. As a measure of reducing fishing pressure in the lake and providing alternative livelihood for the fisher folk
- ✓ Two aquaparks (Kamarinyang', Siunga) Completed and stocked

## **Under Livestock**

✓ Established 28 acres of fodder as a result of 50 kg of Bhoma Rhodes seeds and bracharia splits Procured

## **Under Veterinary**

- ✓ Completed construction of 7 Crush Pens at (Angurai North-Adumai, Malaba Central-Awata Bukhayo North-Khwirale, Amukura Central-Apatit, Namboboto-Khabondi, Bunyala North-Mumoni & Budubusi and 2 cattle dips at Mayenje and Angurai East-Changara
- ✓ With suspected cases of Lumpy Skin Disease within the county and recent outbreak of Foot and Mouth Disease and Anthrax in the neighboring counties, the directorate embarked on vaccination campaign against the Diseases across the county. The exercise is still ongoing

#### Table 6 : Agriculture Sector Programmes Performance Review

Sub Programme	Key Output	Key Indicators	Performance	Planned	Achieved	Remarks
Programme: Fishe	ries and Blue Ecor	nomy Develo	opment	-		
Objective: To Imp	rove Fisheries Pro	duction				
Outcome: Increase	ed Fish Production					
Aquaculture parks development	Integration of rice paddies with fish culture		1		0	No budgetary allocation
	Establishment of cluster production ponds	Number Production established	of Cluster ponds		20	20 ponds constructed and lined at ATC
	Establishment of aquaculture parks	No. of aqu established	aculture parks	2	2	Kamarinyang; 73 fish ponds constructed, drainage and piping done, stocking of fish ponds done, fish feeds procured, construction of Eatery ongoing and CCTV, fencing and installation of electricity done Siunga; 70 fish ponds constructed, drainage and piping done, stocking of fish ponds done, fish feeds procured, CCTV, fencing and

					installation of electricity done
Fisheries training infrastructure development		Number of buildings completed and furnished	1	1	Finishing and furnishing works ongoing
	Equipping of hatcheries	Number of hatcheries equipped	1	1	Recirculating system installed at the hatchery
-	Establishment of manufacturing plant	Number of Manufacturing plants in place	1	0	Building, fencing and fish feed mash production equipment Pelletizer machine procured, Startup fish feeds raw materials procured
	Purchase of harvesting nets	Number of Harvesting nets distributed to farmers in every ward		0	No budgetary allocation
Fish value addition and marketing	Establishment of fish filleting plant	fish filleting plant in place	1	0	No budgetary allocation
		Upgraded border fish handling facility in place	1	1	Fish stalls constructed. Supported by KCB foundation
	Establishment of refrigeration facilities (cold room)	Number of refrigeration facilities established	2	0	No budgetary allocation
	Conduction of Patrols	Number of patrols conducted	12	0	No budgetary allocation
	Desilting of Dams	Number of Dams Across the county desilted	4	0	3 dams stocked under ABDP and 1 by KFS
		Number of dam fisheries management units established		0	
		Number of Fish Cages operating in Lake Victoria		30	3075m3Cagesfabricatedandinstalled125,000AllMale20gramstilapiaseedprocured1,60025

					Kgs of Tilapia Feeds pellets and Mash (40 Tons) Procured
Programme: Li	vestock Production	1			
Objective: To Ir	ncrease Livestock Pro	oduction			
<b>Outcome: Incr</b>	eased livestock Produ	-	-		
Livestock Production Improvement (Cattle)	Purchase of Milking Machine	No of milking machine purchased	8	0	No budgetary Allocation
	Equiping of dairy parks	2 dairy parks equipped (Dairy parks processing equipment supplied (pasteurizer) and operationalized)	2	0	No budgetary Allocation
	Purchase of milk coolers and installation	No. of milk coolers supplied	3	0	Budget allocation not factored for milk coolers
	purchase of dairy animals	No. of dairy animals supplied	80	0	No allocation in the budget
	Establishment of Poultry parks	Number of poultry parks established (equipping and operation)		2	2 poultry parks hatchery operationalized- (Deployment of technical personnel, stocking and hatching of chicks done)
	Supply of birds	Number of birds supplied	5,250	0	No allocation in the budget
	Construction of pig	Number of pig sites constructed.	7	0	No allocation in the budget
	Purchase of gilts and boars	Number of Gilts and Boars purchased and distributed	70	0	No allocation in the budget
	Establishment of hives	<sup>6</sup> % increase in volume of honey produced (placement of hives)		70	Construction of Apiary and Placement of 60 hives in Nangina and Nambuku Namboboto ward through partnership with Climate Change Directorate

		Kgs of fodder seeds procured	250	50kg	50 kg of fodder seeds and bracharia splits purchased and established on 28 acres of land.
	•	2 no. hay balers and 1 no. forage harvesters supplied	3	0	No allocation in the budget
Livestock extension services		Number of farmers trained for adoption of modern livestock production technologies (training and demonstration)	10,000	8684	Livestock Census was conducted through the State Department of Livestock (SDL) for Development of Kenya Livestock Master Plan 80,000 livestock farming households listed in the database 8,684 farmers trained through ASDSP, KCSAP and partners.
Programme: Veter			I		
Objective: To Imp	rove veterinary ser	vices for increased livesto	ck produ	ction and	productivity
	ed livestock produc				
Veterinary Disease Control	dogs	Number of dogs vaccinated	50,000	0	Vaccine not yet supplied
	Vaccination of cattle	Number of cattle vaccinated	150,000	34,774	FMD, LSD and Blanthrax vaccination
	vaccination of sheep	Number of sheep vaccinated	20,000	2,039	FMD and Blanthrax vaccination
	vaccination of goats	Number of goats vaccinated	30,000	4,759	FMD and Blanthrax vaccination
	Poultry vaccination	Number of poultry vaccinated		0	NCD and Fowlpox Vaccines not yet supplied
	Vaccination campaigns on animal disease control (Vaccination)	Number of vaccination campaigns undertaken	5	1	There was delay and inconsistent supply of vaccines
	· · · · · · · · · · · · · · · · · · ·	Number of samples tested	10,000	120	Samples screened in conjunction with KENTTEC
	Conduction of animal surveillance	Number of surveillance reports	4	4	Quarterly reports

Busia i-Vet	I-Technology adoption	I-Technology adopted	1	1	Use of Kenya Animal Bio surveillance System in reporting
Meat inspection services	0	Number of slaughterhouses licensed	35	41	2 County slaughter facilities and 39 private slaughter facilities.
		Number of sets of meat		150	Lab coats and
	Rehabilitation of	inspection attire purchased Number of slaughter houses rehabilitated		150 1	gumboots Busia Main slaughterhouse
		Number of Utility vehicles purchased for General surveillance in the department	3	0	LPO for supply of 2 motorbikes issued, awaiting supply
Vector Control	Construction of crush pens	Number of crush pens constructed	110	7	LSO for construction of two more 2 crush pens issued awaiting construction
	Purchase of acaricides	Number of litres of Acaricides purchased	560	0	Awaiting supply
		Number of foot pumps purchased for crush pens	110	40	Insufficient budgetary allocation
Artificial Insemination (A.I) programme	Purchase of bull semen for improved animal breeds	purchased	9,000	0	Awaiting supply
		Liters of liquid nitrogen purchased	9,500	0	Awaiting supply
		doses of hormones purchased under the heat synchronize		0	Awaiting supply
	nitrogen tanks for	Number of nitrogen tanks for storage of bull semen procured		0	Awaiting supply
Hides and Skins Treatment	Establishment of	Number of hides and skin centres established	1	0	Feasibility study to be carried out.
Re-Construction of Burnt Amagoro Veterinary Office	Construction of office block	Office block constructed	1	0	Not budgeted for

Veterinary Laboratory Services		Number of samples tested and laboratory supplies procured		0	Laboratory re agents and equipment supplied,
Programme Name	e: Crop Production	and Management			
0		ion and Productivity			
÷	-	ductivity (Enhanced Foo	d Securi	ty)	
Crop Production	Marginalized and	Number of marginalized			5,880 farmers received
and Management (Crop Protection)	vulnerable social protection through input access	farmers receiving inputs	3,500	5,880	2 kg bags of maize and 5,000 farmers are to receive 2kg bags of maize in 3 wards.
		No. of acres planted with certified maize seeds.	9,500	840	Reduced budget allocation
		No acres planted with inorganic fertilizer	2,000	346	Reduced Budget allocation in the supplementary.
	Insects and pest control	No. of liters of pesticides purchased	4,400	1,192	Pesticides distributed to farmers
	Soil Fertility Improvement	No. of farms and Soil samples tested for PH	350	0	13 PH Meters were purchased at the end of the financial year. Hence no soil testing was conducted in the FY 2022/23
		No. of acres limed	150	1,500	the target was surpassed due to Support from ASDSP.
	Crop insurance	No of farmers undertaking crop insurance.	1,700	0	No budgetary Allocation
Land Use and Management	Maintenance of tractors	No of tractors serviced	20	0	No budgetary Allocation- tractors were not serviced
	Purchase of farm ploughs	No. of farms ploughs purchased	4	0	No budgetary Allocation
	Purchase of harrow discs	No. Harrows Discs Purchased	4	0	No budgetary Allocation
	Tractor Hire subsidy project	No of acres ploughed.	4,000	0	No budgetary Allocation
Agricultural Training and Extension Services	Farmer Training Support Services	No of Trainings held	14	13	

		No. of farmers trained (men, women, PWD) No. of service providers	1,770	30	Number surpassed through support from Partners. And field days and demonstrations Support from
	Completion and	trained No. Agricultural training Centre Equipped	50 1		development partners No budgetary Allocation
Agribusiness and Agricultural Value	at the ATC Equipping of	No. of Cassava factory equipped and		0	No budgetary Allocation
Chain	Agribusiness	operationalized Number of Rice and Soya processing plants		2	Asinge and Bunyala Rice cooperative rice
	(Butula Rice processing plant, Asinge rice	furnished and equiped			mills were revived by a partner JAICA
	processing plant,Bunyala rice cooperative and soya processing plant in Teso North				

# 1.2. Payments of Grants, Benefits and Subsidies

# Table 7: Payments of Grants, Benefits and Subsidies

Type of payment	Budgeted Amount (Ksh. 'M')	Actual Amount paid (Ksh. 'M'	Benefici	ary	Remarks
Kenya Climate Smart Agriculture			Small	holder	Delayed disbursement of
Project(KCSAP)	654.7	180.1	farmers		funs
Agriculture, Sector, Support			Small	holder	Delayed disbursement of
Development Project (ASDSP II)	57.1	25.1	farmers		funs
National Agricultural Value Chain			Small	holder	
Development Project (NAVCDP)	70	0	farmers		Funds not disbursed
Aquaculture Business Development			Small	holder	Delayed disbursement of
Program (ABDP)	24	13.7	farmers		funs

## 1.3. Challenges

Delay in disbursement of funds from National Treasury hindering the timely implementation of department's projects and programs

## 1.4. Lessons Learnt and Recommendations

- Most Institutions within the County including TVETS, KALRO, LBDA have acreages of land which can be otherwise utilized for fodder production through a contractual agreement.
- The multi-sectorial approach in project planning, budgeting, and implementation in government is the only logical way to enhance synergies and cross-linkages for the relevant institutions/ departments.
- Timely release of funds for efficient implementation of the planned programs; it is important to ensure that the disbursement of the exchequer is in line with the approved cash flow plans to minimize disruptions and delays in implementation of programmes and projects.

## 2. Trade, Investment, Industry, and Cooperatives

## 2.1. Performance Overview for FY 2022/2023

#### Achievements

There was improvement in consumer protection through improved fair-trade practices. The Increase in consumer protection is attributed to enhanced number of legal metrology equipment examined, tested and verified from the baseline of 1600 to 1748.

Through partnership with Trade Mark East Africa, CUTS, Children's Department, Micro and Small Enterprises Authority (MSEA) and Terres D'e Homes (TDH), 450 traders were trained across the County on financial literacy, investment and business management strategies.

Sub Programme	Key Output	Performance Indicators	Planned Target	Achieved	Remarks			
Programme Nam	Programme Name: Trade Development							
Objective: To promote growth of business enterprises								

#### Table 8: Trade Sector Programmes Performance

Outcome: Increas	sed household incom	ne from business en	terprises		
Busia County Trade Development Fund	County Trade Fund Established	Amount (Kshs) of loan disbursed Number of beneficiaries (groups/ individuals)	30	0	Funds were not disbursed to the fund
Markets modernization n and development	Market Infrastructure developed	Number of markets constructed/ renovated	40	0	Funds were reallocated to the County aggregation and Industrial Park
		No of modern sanitation blocks constructed	5	0	Funds were reallocated to the County aggregation and Industrial Park
		Number of markets with installed information system	20	0	Funds were reallocated to the County aggregation and Industrial Park
Business Advisory services	An enlightened business community	Number of the advisory centres set up and/or revitalized Number of people trained	2000	450	Through partnership with TMEA, Children's Department, Micro and Small Enterprises Authority(MSEA)and Terres D'e Homes(TDH). 450 traders were trained across the County.
Programme Name	e: Fair Trade Practice	es	<b></b>		
-	ure conformity to lea		irements.		
Outcome: Increas	sed Consumer Protec	ction			
Fair Trade Practices	Increased consumer protection	Number of Constructed and equipped verification hall	1	0	No budgetary Allocation
		Specialized vehicle purchased	1	0	No Budgetary Allocation

		Number of standards purchased	90	0	Tender awarded, awaiting delivery.
Programme Nan	ne: Co-operative Dev	relopment			
Objective: To est	ablish a strong coop	erative movement			
Outcome: Increa	ased and sustainable	income for househo	olds		
Value addition	Milk Value Chain Developed	Number of milk processing plants constructed	1	0	No budgetary allocation
		Number of coolers purchased	5	0	No budgetary allocation
		Pickup purchased	1	0	No budgetary allocation
		Number of milk handling equipment purchased	1	0	No budgetary allocation
		Lorry procured	1	0	No budgetary allocation
Busia Cooperative Enterprise Fund	Increased Access to affordable credit	Amount of Loans Disbursed	30	8	Funds are yet to be disbursed to individual Cooperative Societies.

## 2.2. Challenges

- Reorganization and beautification of Busia Municipality and its peripherals negatively affected the business community which caused decline in revenue collection from the sector streams.
- Reallocation of funds meant for market modernization and development to the County Aggregation and Industrial Park negatively affected implementation of other priority areas.

## 2.3. Lessons learnt and recommendations

✤ Fastrack on development of the County and Municipality Spatial Plans as well as preparation of Town Part Development plan to guide in zoning of the municipality.

## 3. Education and Vocational Training

## 3.1. Performance Overview for FY 2022/2023

## Overview

The Constitution of Kenya, 2010 Article 43(f) guarantees each person the right to education. Article 53 provides for free and compulsory basic education to all children, basic nutrition, shelter, and health care. Equally, Sustainable Development Goals (SDGs) were adopted by all United Nations member states in 2015 as a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity by 2030.

SDG No. 4 seeks to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.

In this regard, the department through the Directorate of Early Childhood Education has made deliberate efforts to ensure that pre-primary learners are provided with opportunities to enhance their cognitive, social, emotional, and spiritual development. This has been achieved by improving infrastructure in ECDE centers, improving the teacher-to-learner ratio (employing a minimum of 2 teachers per center), provision of learning material and conducting quality assurance and standards assessments.

The Directorate of vocational training has continued to develop an effectively coordinated and harmonized TVET system that is capable of providing quality skilled human resources with the right attitude and values required for the growth and prosperity of the county. This has been possible through the development of relevant policies, improvement of infrastructure, provision of modern tools and equipment and ensuring that additional qualified instructors are recruited to provide quality training in vocational training centers.

#### Key achievements

- In the FY 2022/23 the Directorate of Early Childhood Education trained teachers on Pedagogy teaching approach hence giving teachers an insight into the best practices for a classroom setting and also allow them to understand how different students learn hence Improving the quality of teaching and learning. In collaboration with Child Fund ECDE Capitation policy was developed and approved by Busia County Assembly which will help in Equipping of our ECDE Centres with appropriate teaching and learning materials, the Directorate also supported ECDE Learners in Co-curricular activity up to National Level.
- Vocational Training directorate initiated the process of construction of Administration block phase II at Katakwa and Namasali VTC and completion of twin workshop at Busagwa VTC,

distributed 216 Sewing Machine to all 27 VTCs across the County. The directorate also trained VTC Managers and Board of Managers (BOM) on CBET Curriculum.

Busia County Helb Loan (undergraduate and TVET students)	5,000,000	~	~	No disbursement of Funds

### 3.2. Challenges

- Lack of ICT facilities to enhance digital learning in ECDE centers and Vocational Training Centers hampers their digitization prospects.
- Inaccessible environment, lack of appropriate learning materials, shortage of qualified teachers and discrimination from peers for students with disabilities.

- Inadequate resources to meet demands of the department in addressing the challenges of dilapidated infrastructure both in ECDE Centers and Vocational Training Centers, School feeding program and inadequate teachers in ECDE and Vocational Training Centres and Capacity building of education staff.
- Whereas the county and the national governments have been giving grants to vocational training centers, the high poverty level in Busia has greatly affected enrollments in the VTCs. Most parents can hardly pay for feeding programmes, registration fees and examinations fees.
- Teenage pregnancy among the youth has negatively affected the enrollment in VTCs centres

## 3.3. Lessons Learnt and Recommendations

- Poverty and ignorance among the community on the need for early childhood education has had a negative impact on enrollment hence sensitization of communities on need to support ECDE education will help in improving access to quality early childhood development education
- Project sustainability is guaranteed with absolute public-private partnerships (PPPs) engagements to reduce over-reliance on limited equitable shared revenue to support ECDE and VTCs
- Internet connectivity and purchase of ICT equipment boosts digital learning is part of the broader strategy to ensure equitable access to quality education and lifelong learning opportunities hence the need for enhanced and more efforts from the government(s) and education stakeholder is required.

## 4. Finance, Economic Planning and ICT

The department consists of seven directorates; Economic Planning, Budget, Accounting services, Audit, Supply chain management, Revenue and ICT which are committed to attaining high levels of prudence in financial management and high quality services delivery.

## 4.1. Performance Overview for FY 2022/2023

In the year under review, directorate of Economic planning continued to effectively discharge its mandate in formulation, coordination of implementation, monitoring and evaluation of economic development plans, policies and strategies geared towards achieving county development agenda. The directorate spearheaded preparation of the 3<sup>rd</sup> Generation County Integrated Development Plan CIDP 2023-2027 and the Annual Development Plan. Furthermore, through the M&E unit,

monitoring and evaluation of county projects and partial operationalization of the ECIMEs was undertaken.

The directorate of budget ensured County budget estimates and other budget documents were prepared as per the legal frameworks. Technical support, advice and guidance on fiscal and budgetary matters were also availed to all stakeholders in the County.

Directorate of Revenue undertook automation in collection of revenue in several revenue streams in an effort to boost its capacity. This, together with structural reforms put in place by the management, resulted to an increase in revenue collection from 292M in 2012/2022 FY to 343.9 M in 2022/2023 FY. The directorate will enhance collaboration and engagement with respective departments where revenue streams are domiciled to upscale their efficiency.

Accounting services through its mandate of making payments and production of financial reports; ensured proper control and accounting for receipt and expenditure of public funds which was achieved through development of financial policies and procedures, administration of applicable legislation, timely preparation of financial statements and financial reports.

Audit directorate effectively carried out internal audits and advisory on county programs and projects to ensure value for money is realized. The directorate acts as a link between the County and the auditor general by preparing quarterly reports ready for submission to the Auditor General.

Supply chain management directorate enhanced adoption and implementation of e-procurement as a method of procuring goods and services in line with the Public Procurement and Asset Disposal Act, 2015.

The ICT directorate initiated internet connectivity and provision of ICT support services to county departments, Sub County offices, sub county hospitals and BCRH. Automation for Health and Revenue sectors was undertaken. The directorate further saw establishment of Metropolitan Area Network on fibre connecting all county departments.

Sub Programme	Key Outputs	Key Performance Indicators	Targets		Remarks
			Planned Achieved		
Programme: Public Fina	incial Managemei	nt

	installed and	with			
	commissioned	structure			
		network			

- Lack of regulatory frameworks to operationalize County operations. Various Acts and Regulations on certain revenue streams have not been developed.
- Lack of audit management tools; Essential audit management software (Teammate and IDEA softwares), as recommended by the National Treasury, have not been acquired by the County.
- Technical challenges: Quality data- data obtained from the department is not always adequate and sometimes not verifiable hence the need for strengthening collaboration with KNBS to obtain authentic data.

#### 4.3. Lessons learnt and recommendations

- Authentic and reliable data is essential for effective planning and budgeting hence the need to strengthen county statistical unit.
- Respective regulatory frameworks to be put in place. In addition, existing Valuation roll Act and Regulations should be implemented. All this will positively impact on own source revenue collection.

#### 5. Sports, Culture and Social services

#### 5.1 Performance Overview for FY 2022/2023

In the year under review, the directorate of Children initiated the development of Child Policy which is awaiting approval at the County Assembly.

Directorate of Liquor managed to; Inspect 500 liquor premises, Sensitize 12 bar owners from every sub-county, 497 liquor premises were vetted and visited for approval before issuance of license, this was to determine their eligibility. In collaboration with the National Government, the directorate carried out inspection of liquor premises in an effort to eliminate substandard and counterfeit alcoholic drinks and lastly trained youth leaders and 37 health workers on dangers of alcohol and drug usage.

Directorate of sports oversaw participation of the county through sponsoring 19 teams in KYISA and 9<sup>th</sup> edition KICOSCA games that were held in Tharaka Nithi and Kisumu County respectively.

Under directorate of Culture, Kshs. 3 Million has been set aside to support cultural activities through issuing grants to 72 groups.

The directorate of tourism organized Miss Tourism event that captivated audiences, celebrated cultural diversity and promoted domestic tourism. This contributed to fostering, understanding and appreciation of various community cultures in the county. The event provided a fantastic platform for the pageants to show case their beauty, grace and cultural awareness highlighting the importance of tourism and cultural exchange in the county.

In partnership with UNDP, the directorate of youths was able to secure ICT equipment; 20 computers, 1-50 inch TV, 1 laptop and 1 projector for Nambale Youth Empowerment center. This was a significant step towards empowering the youth with essential skills for the digital age. The initiative has addressed the pressing youth issues, fostered innovation, education and empowerment within the community.

✤ It is imperative to finalize and operationalize the respective legal frameworks

#### 6. Public Works, Roads, Transport and Energy

#### 6.1. Performance Overview for FY 2022/2023

#### Achievements

- Approximately 70 km of new roads opened under the arrangement of the machine hire.
- 42.25 km of earth roads were maintained through the in-house Programme. The roads done include; kodurkoit road, kocholia hospital road, railways-komolo road among others.
- The department oversaw the construction of Busia bus park which is at the tail end of construction.

#### Table 13: Public Works Sector Programmes Performance

# Programme Name: Development and Maintenance of Roads

Objective: To increase the Kilometers of roads upgraded to gravel and bitumen standards

Outcome: Safe, accessible, affordable and sustainable transport for all

Sub Programme	Key Outputs	Key Performance Indicators	Planned	1 Target	Remarks
			Planned Target	Achieve d	
Development of Roads	Construct ion of market access lanes/Cabros	No of Kms of market access lanes constructed	10	~	Budgetary constraints and Re-allocation of funds to other priority areas

Sub Programme	Key Outputs	Key Performance Indicators	Targets		Remarks
			Planned Target	Achieve d	
Solar and Renewable Energy Harnessing	Maintenance of street lights	No. of street lights maintained	50	~	Rolled over due to late approval of the supplementary budget.
	Installation of Solar mass lights and streets lights in rural areas and markets	Number of Markets with solar lighting installations.	50	~	Not achieved because of late approval of the supplementary budget
	Rural electrification	Number of Household connected to the national grid	480	~	Rolled over due to late approval of the supplementary budget
	Renewable Energy Campaign	No of campaigns conducted	1	~	No budget allocation

- Under-budgeting of ward-based projects which are done arbitrarily. This leads to incompletion of projects.
- Supplier apathy; some projects are not taken by contractors due to accumulated pending bills. The projects have to be re-advertised leading to delayed implementation.

#### 6.3. Lessons learnt and Recommendations

- ✤ All projects to be planned for centrally by the department to avoid the under-budgeting.
- Timely payment of the works already accomplished to build on the supplier confidence

#### 7. Lands, Housing and Urban Development

## 7.1. Performance Overview for FY 2022/2023 Key Achievements

Through the municipality of Busia, under Kenya Urban Support Programme (KUSP), 0.8 km of Alupe ring road has been tarmacked. The department has continued to manage solid waste by sub-contracting 21 firms across the county.

Under the directorate of urban planning, the department has initiated the construction of parking slots-laying of cabros as a way of beautifying Busia Municipality.

Programme Name: C	County land Admin	istration and Planning

- ✤ Inadequate resources to effectively implement programmes.
- ✤ Long process in securing valuation services.

#### 7.3. Lessons learnt

\* There's need to have a valuation service readily available by having a land valuer.

#### 8. Water, Irrigation, Environment, Natural Resources and Climate Change

#### 8.1. Performance Overview for FY 2022/2023

#### Achievements

During the period under review, the department strived to ensure there is clean and safe water despite cash flow challenges. In a bid to improve access to clean water, 14 water systems/schemes were maintained, a storage tank of 24M<sup>3</sup> was erected and 10Km pipe extension was developed in urban supplies. One urban project at Mujini was solarized to reduce cost of operation and promote consumption of clean energy.

To enhance tree cover and protection of water catchment areas, the department in partnership with development partners planted 50,000 tree seedlings in two water catchment areas of Kapesur hills and Samia hills. Further, under the directorate of Climate Change School greening programme was initiated having planted tree seedlings in selected schools in Bunyala, Matayos and Butula Sub-counties.

Sub programme	Key outputs	Key Performance		Targets	Remarks*
. 0		Indicators	Planned	Achieved

- Over-dependence on hydro-electric power that increased operation cost for water schemes.
- Weather patterns affected afforestation due to dry spells experienced and short rains that reduced chances of tree survival.
- Encroachment of riparian ecosystem
- \* The emergence of invasive species affecting afforestation programmes e.g, dodder plant

#### 8.3. Lessons learnt and recommendations

- Public Participation promotes project ownership and acceptance by the community
- ✤ Joint planning helps build synergies in all sectors and reduces duplication.
- ✤ Use of nature-based innovations reduces pressure on the environment.
- ♦ Use of appropriate technologies in water supply increases operation efficiency

#### 9. Health and Sanitation

The sector consists of three directorates namely; Curative and Rehabilitative Health Services mandated with Provision of Primary Health care, provision of clinical services, management of health facilities and pharmacies, diagnostic services including radiology and laboratory services, provision of nursing services, provision of rehabilitative services among others; Preventive and Promotive Health Services mandated to undertake health promotion and education activities, provide technical advice on Promotive and preventive health, campaign and creation of awareness on diseases of public interest, provision of community health services through community strategy, disease surveillance and investigation, Inspection of premises, institutions and finally Universal Health Coverage mandated with ensuring access to health services activities by all residents, improving quality of services and ensuring affordability of health service

#### 9.1. Performance Overview for FY 2022/2023 Key achievements

During the period under review, Malaria prevention for pregnant women who were issued with LLITNs improved from 87.8% to 89.4%, HIV positive pregnant women receiving ARVs to prevent MTCT improved from 99.9% to 100.8% and Women of Child Bearing Age who received Family Planning services increased from 25.9% to 29.1%.

Under infrastructure development, the department completed the Construction of a modern complex block at Amukura Level IV hospital, Rwatama Dispensary, Male ward at Teso North and Nambale Sub County Hospitals, Maternity wing at Port Victoria SCH, Modern theater at Matayos and Dental unit at Alupe Sub -County hospital.

In collaboration with the National government, a Surgical Patient ward with a100 bed capacity was constructed and operationalized.

Under the eye care services, Busia County is leading in reporting rates and accuracy of eye care data across the country through routine data review, prompt reporting and uploading into KHIS. This will improve further since the department has acquired a new eye data capturing tool MOH 416. The department has also acquired two additional Ophthalmic assistants, deployed at Teso South and Nambale, this will help bring eye care services closer to the people across the country.

A total number of 1,850 CHPs were trained on Community Case Management of Malaria and 876 CHPs trained on Integrated Community Case Management which is a strong community - based component to deliver interventions for diagnostics and treatment to multiple illnesses specifically pneumonia, diarrhea, malaria newborn care and acute severe malnutrition for sick children of families with difficult access to case management at health facilities. This intervention will also improve service at community units.

In collaboration with Moi University, the department of Health was able to conduct mapping of sickle cell patients across the county. This will offer a platform for the department to estimate

significant clinical events including frequency of Vaso occlusive crisis, transfusion needs, frequency of complication, and pattern of drug prescription as well as survival.

Achieving UHC is one of the targets the nations of the world set when they adopted the 2030 Sustainable Development Goals (SDGs) in 2015. To achieve this the department registered 10,030 indigents in December and January 2023 in addition to previously registered 20,000. Furthermore, in collaboration with Members of the County Assembly, KES 13.5 million was allocated for NHIF awareness and registration across the county. Optimization of NHIF indigents is on-going and the department is targeting 13,050 indigents. This initiative will increase the number of community members with Health insurance cover and therefore protect the vulnerable from financial consequences of paying for health services out of pocket.

Menstrual hygiene is vital to the empowerment and well-being of women and girls. For this matter, the department rolled out the Menstrual Hygiene Management programme to ensure that women and girls live in an environment that values and supports their ability to manage their menstruation with dignity. To anchor this, advocacy and mentorship sessions were conducted across the county reaching a population of 11,678 as well as distribution of both Reusable and disposable sanitary pads that benefitted 2,850 adolescent girls across the county. Busia County was also privileged to host the national event on World Menstrual hygiene day.

On revenue Collection, the department managed to attain Kes 172,400,465 Million against a target of Kes 158,451,793. This attributes to 108.8% achievement

The role of the partners could not also be overlooked during the period, and their efforts in supplementing the county government's efforts were notable. Among the partners, Global Fund for their support towards HIV/AIDS and TB programs, Marie Stopes Dumisha Afya HIV Comprehensive care and health systems strengthening, Nutrition International in Nutrition, Fred Hollows in Eye care Services, CEDC in Budgeting and advocacy, UNICEF in Child Health & sanitation, Health Systems Strengthening, planning and Budgeting, DANIDA, Red Cross and Living Goods in Level 1 interventions, advocacy and Health financing among others.

Sub Programme	Key Outputs	Key Performance Indicators	Targets		Remarks
			Planned	Achieved	
Programme : Curative H	ealth Services				
Objective: To enhance a	ccess to basic med	ical healthcare service	ces		
Outcome: A society free	from disease and	disability			
Infrastructure development at Tier 3 facilities countywide	Dermatology centre established at level 4 facility	Number of a functional dermatology centre	1	1	A clinic opened at Alupe and dermatologist deployed.
	Psychiatric Unit established at a level 4 facility	No. of functional Psychiatric unit	1	~	Not implemented due to limited resources. Ward 5 identified as an ideal space for the same

Table 16: Healt	) Sector	Programmes	Performance
Table 10. Health	Ductor	1 logrammes	I CITOI manee

	Canopies built and walkway improved at 3 sub county hospitals	No of facilities with improved walkways	3	1	Pavements done partially at BCRH
	Health centres upgraded to level 4 hospitals	No of facilities upgraded to level 4 facilities	2	~	Priority was given to operationalization of already upgraded facilities
	Modern kitchen constructed and equipped in level 4 Hospitals	Number of facilities with standard functional kitchen blocks	2	~	Not implemented due to limited resources. BCRH budgeted for in FY 2023/24
	Dispensaries upgraded to Health centres	Number of dispensaries upgraded to Health Centres	7	~	Priority was given to operationalization of already upgraded facilities
Equipment upgrade	Procurement of 5 standby Facility Generators	No of facilities with functional hospital generators	5	~	Biding affected by underbudgeting. Khunyangu, Nambale and Busia referral Hospital in dire need
	Functional eye unit established at level 4 hospital	No of facilities with functional eye unit	4	1	Eye units established at Khunyangu
Programme : Preventive	and Promotive Hea	alth Services			
Objective: To reduce the	burden of disease,	, Injuries and mortal	ity		
Outcome: Reduced more	oidity and mortality	y due to preventable	diseases		
Infrastructure development	New laboratories constructed in level II & III facilities countywide	No of laboratories constructed at level II & III facilities countywide	2	~	Not implemented due to limited resources.
	Completed facilities operationalized countywide	No of facilities equipped and	5	2	2 dispensaries opened. Buyingi and Okwata
Malaria Control	Reduced incidences of Malaria	Number of LLITNs distributed	687,000	620,000	Activity is undertaken once every 3 years. Mass net distribution undertaken in the months of May, June & July 2021.

		No of facilities receiving and reporting on malaria commodities	100	95	Currently at 95% against a target of 100% due to opening up of new facilities. Activity on going Funded by Impact Malaria, National Malaria Program and President Malaria Initiative
RMNCAH (reproductive Health, Maternal, Neonatal, Child Adolescent health	Strengthening of reproductive maternal, Neonatal, child and adolescent health	% of fully immunized children	93	82	Attributed to availability of vaccines and creation awareness coupled with interventions at community level targeting Menstrual and child health messages/services
		% of women of child bearing age receiving family planning commodities	60	55.4	Attributed to awareness and outreaches being undertaken
		No of skilled delivery conducted	95	88	As per KDHIS data, at 88 against a target of 95%. Majority of level 2 facilities unable to offer night services due to staffing and lack of equipped maternity wing and absence of staff houses . Efforts are ongoing to reverse this trend
HIV/AI DS	Reduction of HIV/AIDS related mortality and new infections	Number of eligible HIVclients on ARVs	16,000	32,214	A total of 32,214 are currently active on ARVs. Supported by AMPATH
Nutrition Services	Improvement of access to nutritional services	% of infants under 6 months on exclusive breastfeeding	56	82.4	Proxy indicator, attributed to the trainings of HCWs on Maternal Infant and Young Child Nutrition and Baby Friendly Community Initiative, commemoration of

		% of pregnant women receiving iron folate for at least 6 months	60	61	World Breastfeeding Week
Community Health Services	CHVs engaged on monthly stipend at level 1 activities	Number of CHVs on stipend	2300	2190	Adequate funding to be provided
	Maternity blocks completed and operationalized in level 2 and 3 facilities	No of Maternities blocks completed and operationalized		1	Esikhulu dispensary in partnership with Busia Sugar
	Households upgraded with improved sanitation systems	Number of households upgraded with sanitation systems	40,000	34,000	So far total of 34,000 households are covered on sanitation improvement . Mostly implemented thru AMREF K-SHIP project
	Procurement of 13 sets of food testing kits	No of food testing kits procured	13	~	Not implemented. Competition for resources from essential areas hence not funded
	Procure 13 sets of spraying equipment	No of spraying kits procured	13	~	Not implemented. Competition for resources from essential areas hence not funded

# Table 17: Payments of Grants, Benefits and Subsidies

Type of payment	Budgeted Amount (Ksh.)	Actual Amount paid (Ksh.)	Beneficiary	Remarks*
DANIDA	48,040,124	25,724,698	Lower health facilities	Awaiting additional disbursement
NUTRITION INTERNATIONAL	24,000,000	I,613,450	Adolescents, school going children, pregnant mother & elderly persons	Awaiting additional disbursement
Transforming Health Systems for Universal Care Programme	42,178,872	7,160,067	Women of reproductive	Awaits Payment of arrears

			age(15- 49),children under (0- 59)months& Adolescent(10 ~19)Years	
KDSP	46,709,821	14,193,501	Residence of Busia county	Awaits payment of completed projects

- The department struggled through the year to meet its health products and medical technologies demand vis a vis the budgetary allocation. This affected the procurement and distribution of essential commodities with increased reported stock outs in facilities and the county commodity store.
- ✤ A delay in disbursement of funds and grants from exchequer negatively impacted the ability of the department in meeting its development aspirations.
- Inadequate funds to fully implement all the projects and programs that had been captured in the ADP.
- In the implementation of projects, the funds absorption was low majorly attributed to the slow pace of the contractors mandated to execute the works. This had an overall impact of delay in completion of key projects.

#### 9.3. Lessons learnt and recommendations

- Procurement of contacts preferably be done during the first quarter to allow for implementation of same during the second and third quarters, to avoid spillage of projects into subsequent financial years.
- The full implementation of FIF Act will enable ring fencing of the departments resources to create more efficient and effective service delivery to the people.
- Investment in health human capital and infrastructural development needs to go hand in hand/commensurate for successful realization of improved health outcomes.
- Political goodwill and adequate financial support are essential in the implementation of healthrelated programmes and projects
- There is need to enhance domestic and external resources mobilization to bridge the resources gaps in the health sector care and service delivery
- \* Training and motivation of staff in an effort to retain them is key

#### 10. The Governance, Public Service and Administration

The sector Comprises of the Governorship and Public Service Administration and Gender departments.

#### 10.1. Performance Overview for FY 2022/2023

In the year under review, the Disaster Management Directorate was able to establish, equip, and operationalize two disaster management centers at the county headquarters in Busia town and Amagoro in Teso North. This has helped reduce response time, thus saving lives and property.

The directorate constructed 8 high mast lightning arrestors in lightning-prone areas, namely: Chamasir, Kakapel, Korisai, Katakwa, BCRH, Matayos School, and Murumba. This has protected the lives of 3000 school-going children and members of the public, consequently leading to a reduction in the number of fatalities.

The directorate supplied food and non-food items worth to 900 households. As a result, 4500 victims were supported, thereby strengthening the risk response.

To ensure the strengthening of information dissemination and publicity, the Communication Directorate procured audiovisual communication equipment, including an iMac, a camera, a tripod stand, a camera video light, and an audio recorder.

The department of Public service Administration and Gender effectively executed its functions among them; it Ensured adherence to Human Resource policies and Labor related laws; Assisted staff in acquisition of payroll numbers; HR Planning, Reduction in staff salary payment outside the IPPD, Management of staff pension and gratuity; Promotion of staff cohesion by ensuring fair labor practices and Facilitated staff with disability to obtain tax exemption certificates.

Enforcement of public laws and security	Enhanced Security within the County Installations	Number of metal detectors procured and in use within the County Headquarters and the Sub Counties	40	~	No budget allocation

- Inadequate policy framework
- Inadequate resources to fully implement programmes

#### 10.3. Lessons learnt and recommendations

There is need to develop and finalize key policies, disaster management and enforcement.

# CHAPTER THREE: COUNTY STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS

#### 3.1. Sector Overview

3.1.1. Agriculture, Livestock, Fisheries, Climate Change, Blue Economy and Agribusiness Agriculture sector contributes substantially towards the overall development and transformation of Busia County ensuring food security and improved human health and nutritional status. The sector is comprised of four directorates; Agriculture, Livestock, Fisheries and Veterinary Services. In the FY 2024/25, more focus is put in realizing the department's key result areas using ward based economic Revitalization model.

#### Vision:

A leading county in food security and sufficiency for sustained livelihoods

#### Mission:

To improve the livelihoods of Busia County residents through the promotion of competitive agriculture, provision of support services while ensuring a sustainable natural resource base.

#### Sector Goal(s)

Reduction of Rural Poverty and safeguarding of family food and nutrition security Sector Objectives

Structural transformation of the Economy, Reduction of Rural Poverty and Creation of enabling environment for increased investment in Agro-food & allied sector

#### Sector Strategic Priorities

Agriculture sector is key in addressing poverty and food insecurity challenges. Strategies for poverty and food security will focus on activities aimed at improving crops, livestock and fisheries to safeguard real farm incomes, and ensure availability and access to quality food. This shall entail transformation of subsistence agriculture into commercial production through i) institutional organization of the sector and the development of production and marketing infrastructure to support efficient production sustainably ii) Facilitate increased production, productivity and profitability of farming enterprises and iii) Provide enabling policy and regulatory environment to facilitate agriculture driven economic transformation of the communities. The sector has prioritized the development of edible oils (seed cotton, Ground nuts, Sunflower, Sesame, Soy bean), Dairy, Poultry, Fish farming, and Beef Value chains to drive the rural economy of the

county. Food crops like maize, rice, finger millet, beans are also under production mainly for house hold food and nutrition needs. The Department shall organize the transformation Ward Agriculture driven economic transformation through the design and implementation of a Ward Economic Transformation Program (WERP) with subprograms (Components) namely i) Farm Resource organization and Management (Institutional and Infrastructural), ii) Production, Pproductivity and Profitability (',Tripple –P'), iii) Policy and Legislation Framework Component and iv) Market Development Component. Activities and deliverables under the project are summarized in Annex 2.

Stakeholder	Role	Possible areas of collaboration
County Agricultural Departments	Creates enabling policy environment, facilitates extension services and provides technical services	Coordination of agricultural programmes
Farmers	Producers	Implementation of good agricultural practices
Farmer Organizations	Represents interests of farmers, solicits for fair prices & suitable market for produce	Mobilization of farmers, capacity building and marketing of produce
Co-operative Societies	Mobilizes local resources for the benefit of members	Mobilization of farmers, capacity building and marketing of produce
Development Partners	Support Policy formulation processes, provide farmer support initiatives, program funding	Funding of agricultural programmes and projects
Private Sector	Provide market for farmers' produce, value addition	Compliance to standards and ethical practises
Civil Society Organizations	Advocacy and community sensitization	Advocacy on key Sectoral issues
NGOs and CBOs	Provide technical support & training on best agricultural practices and market linkages	Mobilization of farmers, capacity building and funding of community-based initiatives
National/ County Governments and their respective Ministries and departments	Policy formulation, implementation and evaluation, provision of resources and technical backstopping	Funding of agricultural programmes and projects, Policy formulation and continuous engagement of key Sectoral matters
Training and Research institutions	Provision of relevant agriculture research and training services	Capacity building and Research – Extension linkages

 Table 5: Key sector stakeholders Analysis

# Table 21: Summary of Agriculture Sector Programmes to be implemented in FY 2024/2025

Sub~ Programme	Key Output/outcome s	Key performance Indicators	Baseline	Planned Target	Budget FY 2024/25 (Ksh Million)

		Number of groups recruited	30	56
		Kgs of fish produced by beneficiaries	33,000	135,540

# Table 6: Cross-Sectoral Impacts

Programme	Sector	Cross-Sector Linkages		Measures to Harness or	
		Synergies	Adverse Effects	Mitigate the Effects	
Crop Production and management	Roads and Energy	<ul> <li>Construction of feeder roads to facilitate transportation of farm produce to markets</li> <li>Promotion of green energy approaches to ameliorate greenhouse gas emission, global warming and adverse effects of climate change on agriculture</li> </ul>	<ul> <li>-Release of storm water from road drainage to farms leading to land degradation</li> <li>-Arbitrary opening up of roads creating conflicts with the farming community</li> </ul>	<ul> <li>-Compliance with Sustainable Land Management (SLM) in road construction</li> <li>- Continuous engagement with the crops sector and the farming community</li> </ul>	

Programme	Sector	Cross-Sector Linka	ages	Measures to Harness or
		Synergies	Adverse Effects	Mitigate the Effects
	Water and environment	<ul> <li>Protection of riparian land and ensure compliance with river bank protection</li> <li>Proper waste management and disposal</li> </ul>	-Uncontrolled waste management whereby the community dispose wastes in undesignated farmlands -Handling of climate Change related issues but losing site of the fact that agriculture is the most negatively affected sector due to	-Promote run off water abstraction (Ponds/Dams/ Pans/Water ways) to reduce pressure on underground water and subterranean streams due to uncoordinated bore hole construction -Continuous engagement with the crops sector and the farming community on environment/water related laws/policies/acts
	Trade and cooperatives	-Market linkage for agricultural produce - Promotion of a conducive trade environment to protect the producer folk from undue competition -Oversee the election of producer cooperatives and societies leadership	climate change -Lack of engagement with the crops sector to identify strong and progressing producer cooperatives -Election of cooperatives leadership who do not participate in respective value chains hence do not understand challenges facing individual farmer folk -Lack of enforcing trade environment that protect producers	-Continuous engagement with the crops sector to identify proactive producer cooperatives -Vouch for a fair trade environment for the producer folk
Livestock Production and Marketing	Lands, Housing and Physical planning	secure land for livestock development	Encroachment of livestock development t land by estate developers	-ensure IEAs are done - Contractual farming
	Water and Environment	Provision of water for livestock	Water pollution	-Control water pollution
	Trade and Cooperatives	Provide better markets for Livestock	Environment pollution	Compliance with NEMA standards

Programme	Sector	Cross-Sector Linka	ages	Measures to Harness or
		Synergies	Adverse Effects	Mitigate the Effects
Fisheries and Blue Economy	Environment	Issue Environmental Impact Assessment, Social Economic Impact Assessment	Poor assessment can lead to land degradation, pollution, conflicts environmental and health hazards	Projects that require EIA should be conducted prior to commencement of the project
	Meteorological	Weather advisory services	Late advisory can lead to loss of fish stocks, destruction of fish ponds and delayed stocking	Timely weather advisory updates , Create farmer platforms for updates
	Water and Natural resources	Issue permits for water abstraction, Enforcement of water quality regulations	Fish mortality, pollution	Enforce water quality management regulations

#### 3.1.2. Trade, Industry, Investment and Cooperatives

#### Vision:

A leading department in the promotion of trade, cooperative movement and investment.

#### Mission:

To foster inclusive and sustainable socio-economic development through promoting investment in trade, entrepreneurship, innovations, value addition and cooperative development

#### Sector Goal

To facilitate and promote trade and co-operative development and ensure fair trade Practices

#### Sector Objectives

- > To increase access to trade and investment
- > To strengthen fair trade practices
- To promote industrialization
- > To improve access to cooperative services

# Sector Strategic Priorities

# Table 7: Strategic Priorities

Priorities	Strategies
To increase access to trade and investment	Enhance MSME promotion
	Improve market infrastructure
	promote investment
To strengthen fair trade practices	Improve verification of weighing and measuring equipment
To promote industrialization	Promote and develop industries
To improve access to cooperative services	Increase investment in cooperatives

			Demolition of buildings	Establishment of market centres and parking bays along the roads; Development of a resettlement plan	

Cooperative Business Development	Agriculture	Collaboration in value addition and supply of farm inputs	Excess use of farm inputs on small scale farms	Limited use of farm inputs on small scale farms
Industrialization	Agriculture	Collaboration in the provision of farm inputs for agricultural production	Excess use of farm inputs affects soul fertility	Limited use of the industrial farm inputs in production
Trade Development and Investment	Agriculture	Collaboration in marketing of the goods produced from Agriculture	Excessive promotion of external traders	Controlled advertisements.

# 3.1.3. Education and Vocational Training

The county Sector of education and vocational training comprises of two sub-sectors; Early Childhood Development Education (ECDE) and Vocational Training.

### Vision

A quality education and training for all to transform Busia into an intelligent county in the frontline of global progress and innovation.

#### Mission

The department mission is to provide accessible, holistic and quality education and training to all, for the socio-economic and sustainable development of Busia County.

#### Sector Goal

Attaining quality education for all and lifelong learning mobilizing science knowledge and policy for sustainable development. Addressing emerging social and ethical challenges fostering cultural diversity, intellectual development and a culture of peace in the county.

#### Sector Strategic objectives

- > To increase access to equitable and quality early childhood education
- > To increase access to equitable and quality VTCs training
- > To Provide Affordable and Quality Education and Training
- > To strengthen Strategic Partnerships and linkages in promotion of Education in the county

# Development Priorities, Interventions and Strategic focus for the FY 2023/2024

The directorate of Early Childhood Education is committed to offer access to equitable and quality pre-primary education with the aim of improving enrollment rate, transition rate and inclusive education for learners with disability. The directorate plans to construct Modern ECDE centres which are Child and disability friendly, renovate ECDE classrooms, Equipping of ECDE centres with WASH facilities, Enhancement of school feeding program, provision of Digital learning materials and Establishment of SNE ECDE Centres.

In the FY: 2024-2025 the department under the directorate of Vocational Training will continue to promote access, equity, quality and relevant training by building and equipping workshops in Vocational Training Centres, Enhancement of Education support scheme and establishment of home-crafts centres across the county, this will boost the workforce that is required hence achieving an empowered and self- relient goal among the Youth

Stakeholder	Roles	Possible areas of collaboration
UNICEF ~ CHILD FUND	Technical support to education sector	Funding of ECDE Feeding programme
Ministry of Education (National Government)	Develop education policies, curriculum, quality management of education	Conditional funding to education infrastructure (Vocational Training Institute) and capitation
Parents	Provide learners,	participate in institution development, funding through fees, management of institutions
BOM/BOG	Management of daily learning in institutions, institutional funds, employment & discipline of staff	Focusing on small number of ambitious goals or priorities, persistence, developing capacity and spreading quality implementation
TSC	Registration and management of teachers	Capacity building of teachers on professional development courses
TVET	Regulation of technical education	Responding to the demands of the market and needs of industry by realigning the syllabus to the relevant skills needed
Religious groups	Establishment and management of schools	Provision of Human resources such as; Volunteers, mentors and also provide material resources such as food, clothing and other durable goods
Student	Education beneficiary	Collaborative learning, participate actively in Both Curriculum and co-curriculum activities and being discipline
Donors	Provide resources in learning institutions.	Funding of school feeding program, award scholarship to needy students and provision of modern teaching and learning materials.

# 3.1.4. Finance, Economic Planning and ICT

# Vision

A prosperous County committed to prudent financial management, economic planning and technological innovation.

# Mission

To provide high quality financial, economic and advisory services through efficient and effective fiscal planning, resource mobilization, budget administration, coordination, formulation and implementation of policies and programs for accelerated, equitable and sustainable development for the citizens of Busia County through technological innovation.

# The sector goals;

- ✓ Develop and implement financial and economic policies in the county
- ✓ Mobilize resources for funding budgetary requirements
- $\checkmark$  Put in place mechanisms to raise revenue and resources
- ✓ Consolidate annual appropriation accounts and other financial statements.
- ✓ To ensure safe custody and safeguard County Governments assets
- ✓ Prudent management and control of finances
- ✓ Promote efficient and effective use of county budgetary resources
- ✓ Monitoring and evaluating implementation of county projects
- ✓ Establish an Enterprise Resource Planned (ERP) System to automate county services and processes
- ✓ Improve access and literacy in ICTs

# Objectives

The objectives for the sector include;

- To improve public financial management
- To improve Economic policy formulation, planning and M&E
- To increase access to ICT services

# Table 31: Strategic Priorities

Priorities	Strategies
To improve financial management in the	Increase Own Source Revenue collection
county	Timely implementation of budget
	Strengthen procurement process
	Strengthen asset management system
	Strengthen internal control systems
To improve Policy formulation and planning	Strengthen linkages between plans and budgets
	Strengthen Monitoring and evaluation systems
	Strengthen county statistical system
To increase access to ICT services	Strengthen ICT infrastructure and connectivity
	Build human resource capacity to utilize ICT services

The recognition of the key role played by stakeholders in the determination of policy, its implementation, and outcomes has made stakeholder analysis a vital tool for strategic development. The table below outlines the key stakeholders with substantive roles and responsibilities in project/program formulation and implementation

# Table 11: Key Sector Stakeholders

Stakeholder	Roles and Responsibilities
County Assembly	Legislation, Oversight and Approval of documents
National Treasury	Provision of guidelines and capacity building
Ministry of Planning	Policy formulation and capacity building
KNBS	Provision of statistical data
KIPPRA	Policy formulation and capacity building
UNDP	Capacity building
ОСОВ	Oversight on budget implementation
OAG	Oversight and external audit

# 3.1.5. Sports, Culture and Social services

## Vision

A socially, self-driven and empowered community.

## Mission

To mobilize the Busia Community for sustainable social protection, talent nurturing, heritage preservation and creating equal opportunities for children, youth, women, PLWDs, older persons and other vulnerable groups for a holistic growth and development

# Sector Goal(s)

Aims at creating equal opportunity for youth, women, PLWDs, older persons and other vulnerable groups in a bid to improve livelihood.

#### Sector objectives

- a) To promote and develop cultural activities
- b) To enhance access to child care, right and protection
- c) To increase access to youth empowerment and development services
- d) To promote and develop sports
- e) To enhance promotion and Development of Local Tourism in the County
- f) To enhance control of Alcoholic Drinks and Drug Abuse
- g) To enhance access social Assistance and development to vulnerable

#### Table 34: Strategic Priorities

# 3.1.6. Transport, Public works and Energy

# Sector Overview

# Vision

To develop quality, reliable, sustainable and resilient infrastructure and provide access to safe affordable public transport systems.

# Mission.

To expand public transport and build infrastructure with special attention to the needs of women, children and people with disability through production of appropriate designs and increase investment.

# 3.1.7. Lands, Housing and Urban Development

# Sector Overview

This sector is composed of directorates of Lands & Survey; Physical planning; Housing and Urban development and the two municipalities-Busia and Malaba.

Directorate of Lands and survey deals with management of public land, surveying all public lands and dispute resolution along the boundaries.

Physical planning deals with preparation of land use plans and development controls.

Housing directorate provides management and maintenance services of government houses in terms of renovation and refurbishment, giving technical advisory services in county government offices and training members in Appropriate Building Materials and Technology.

Urban development does facilitate sustainable development in urban areas.

The two Municipality oversee functions within their jurisdiction and undertake other functions as may be delegated by the county government as enshrined in urban areas and cities act

# Vision

Excellence in land use management and provision of affordable and quality housing for sustainable development.

### Mission

To facilitate improvement of livelihood of Kenyans through efficient administration, equitable access, secure tenure, suitable management of land resources and access to adequate housing.

### Sector Goal

To provide services on Lands, Housing and Urban Development in the County

## Table 39: Sector strategic priorities

# 3.1.8. Water, Irrigation, Environment, Natural Resources and Climate Change

## Sector Overview

To enhance service delivery the department has four directorates namely; Water and Sewerage, Environment and Forestry, Climate Change and Irrigation.

The department is mandated to improve access to clean and safe water, promote conserve and protect Environment and sustainably increase food production through irrigation and Drainage.

## Vision

Reliable Access to Clean and Safe Water, Secure Environment for Sustainable Development

## Mission

To Improve Access to Clean and Safe Water, Promote, Conserve and Protect the Environment

## Sector Goal(s)

To improve access to clean and safe water, promote conserve and protect Environment and sustainably increase food production through irrigation and Drainage

## Sector Objectives

- > To increase access to clean and safe water for domestic use
- To increase access to sewerage services
- > To strengthen climate change resilient
- > To increase access to irrigation water and Land reclamation service

# Table 43: Sector Strategic Priorities

Sector Priorities	Strategies
To increase access to clean and safe water	Strengthen water infrastructure
	Strengthen water governance structures
	Enhance water quality management
	Strengthen operation and maintenance of systems
To increase access to sewerage services	Develop sewerage network
To improve environmental conservation and	Strengthen environmental governance
management	Enhance environmental pollution control
	Create environmental awareness
	Improve afforestation & agro-forestry
	Promote nature-based livelihoods
	Improve Catchment & watershed conservation
To mitigate and adapt to Climate Change	Enhance resilience to climate Change
To improve Natural resource Management	Enhanced Sustainable utilization of natural Resources
To increase access to irrigation water	Develop irrigation infrastructure
	Strengthen irrigation governance structures
	Capacity build and enhance farmer and institution
	support services

# Table 44: Key sector stakeholders

Neighbors	Implementers of water governance programs	Governance
Initiative Alliance		
Community Asset	WASH Program implementers	Infrastructure Development,
Building and		capacity building and PPP's.

Stakeholder	Roles	Possible Areas of Collaboration
Development		
Action (CABDA)		
NEMA	General supervision and coordination over all matters relating to the environment and to be the principal instrument of the Government of Kenya in the implementation of all policies relating to the environment.	ESIA permit issuance
KFS	To enhance development, conservation and management of Kenya's forest resources base in all public forests, and assist County Governments to develop and manage forest resources on community and private lands for the equitable benefit of present and future generations.	Environmental protection and management
KEFRI	Mandate. Conduct research in forestry and allied natural resources. Disseminate research findings to stakeholders.	Research and capacity building
LINDA MAZINGIRA	Tree planting	Environmental protection
WRA	Regulate the management and use of water resources and enforce the regulations made under the Water Act (2016)	Water abstraction permits acquisition
WASREB	Determine and prescribe national standards for the provision of water services and asset development for water services providers Set standards, monitor implementation and enforce compliance of the standards	Adoption of water service provision models
Ministry of Water, Irrigation and Sanitation	Overall policy formulation of the water sector in the country, resource mobilization and capacity development and providing an enabling environment in the sector policy formulation	Enhancement of enabling environment, resource mobilization and capacity development
WRUAs	Collaborative management of water resources and resolution of conflicts concerning the use of water resources at the basin level	Water resources management and conflict resolution
WSTF	Provision of conditional and unconditional grants to Counties (exclusive), financing the development and management of water services in underserved and marginalized areas	Resource mobilization for infrastructure development
National Water Harvesting and Storage Authority (NWHSA)	Development and management of national public water works for water resources management and flood control, Maintain and manage national	Water harvesting and storage infrastructure development

Stakeholder	Roles	Possible Areas of Collaboration
	public water works infrastructure for water resources storage and undertake strategic water emergency interventions during drought	
KEWI and WARREC	Provide training and conduct Water-related research	Research and capacity building

## Sector Programmes

Focus under FY 2024/2025, will be to strengthen infrastructure and enhance maintenance within our facilities. The sector of water has developed a number of water facilities but currently over half are performing at an efficiency of below 40%. As we endeavor to improve on reliability, pipe extensions to existing high yielding supplies, solarization of water systems, Development of storage facilities, reduction in non-revenue water and Drilling wells in strategic institutions will be encouraged. The Environment shall be protected to ensure Climate Change Mitigations and resilience is built for the County. All our riparian lands, water catchment zones and hill tops will be protected, rehabilitated and restored. Farm Forest and Development of Bamboo will be encouraged with an aim of introducing industrial cottages such as Bamboo by-products, Fruit trees and honey industries. Programmes shall be put in place to combat climate change and its effect, halt and reverse land degradation, combat the desertification and promote, conserve and encourage sustainable use of our natural resources.

# Table 46: Cross-Sectoral Impacts

Programme Name	Sector	Cross-sector Impact	;	Measures to Harness synergies/ Mitigate	
		Synergies	Adverse Impact	the adverse Impact	
Water and Sewerage Services	Health Services	Improved access to clean and safe water for domestic use reduces incidences of waterborne, water based and water washed diseases	Water pollution	Increase access to clean and safe water to households and health care facilities and Control water pollution	
	Education, Agriculture, Livestock, Fisheries Cooperatives, Trade, Industrialization and Tourism	Provision of clean and safe water to learning institutions & markets provides conducive environment for learning and traders while production of adequate water increases agricultural and industrial activities	Inadequate water leads to low levels in sanitation, crop failure and Water pollution	Invest in more sustainable water projects for industrial and institutional consumption Control water pollution	
Environmental Management and Protection	All Sectors	A sustainably managed environment supports life, avails resources to the economy and acts as a sink for emissions and waste to spur economic development	Enforcement of policies and regulations	Strong enforcement unit to be established to conduct Environmental Impact Assessment for every project before take-off and Develop environment management plan to ensure a clean and healthy environment is maintained Reduce incidences of air and noise	

Programme Name	Sector	Cross-sector Impact	;	Measures to Harness synergies/ Mitigate
		Synergies	Adverse Impact	the adverse Impact
				pollution to manageable levels and Comply and enforce NEMA guidelines
Natural Resource Management	Lands, Housing and Urban Development; Agriculture and Animal Resources; Governorship; Health and Sanitation; Public Works, Transport, Roads and Energy	Planning and exploitation	Degraded and depletion of natural resources	Protection of natural resources and Enforcement of natural resource policies
Irrigation and Land reclamation services	Agriculture, Fisheries and Animal Resources, Trade cooperatives & Industry and Lands	Mapping, implementation and marketing & sale of products and Process surplus farm produce	Climate Changeups and disease, infestation, Inadequate markets for farm produce, Insufficient storage and Land demarcation	Increase Land under irrigated agriculture and increase access to markets for the agricultural produce

# Table 47: Payments of Grants, Benefits and Subsidies

Type of payment (e.g. Education bursary, Biashara fund etc.)	Amount (Ksh.) 'Million'	Beneficiary	Purpose
FLLoCA -Climate Change Investment resilient grant	136	500,000	Financing locally led climate action projects/programs at ward level.
FLLoCA-Institutional Support Grant	11	200	For institutional Support i.e. training of Climate Change Committees, Steering, Planning, Ward planning Committees and public trainings on matters of Climate Change

# 3.1.9. Health and Sanitation Sector Overview

The sector is mandated to coordinate and oversee the overall health sector delivery systems by all health services players within the county, with an overall goal of attaining the highest attainable standards of health for all. The department of Health and Sanitation is therefore committed to undertake its roles as enshrined in the 4<sup>th</sup> Schedule of the Constitution 2010 as read together with the Bill of Rights that recognizes health as an economic and social right. The sector will align its planning with the aspirations the Social Pillar under the Kenya Vision 2030 and the Kenya Health Policy 2014-2030.

# Vision

A healthy, productive, and internationally competitive county

# Mission

To build a progressive, sustainable, technologically driven, evidence-based, and client centered health system with the highest attainable standards of health at all levels of care in Busia County.

## Sector Goal(s)

The department will endeavor to implement its mandate by focusing on the preventive and promotive interventions as mitigant to disease burden while at the same time focusing on curative and rehabilitate services. The key goals for the sector include to;

- 1. Eliminate communicable conditions
- 2. Halt and reverse rising burden of non-communicable conditions
- 3. Reduce the burden of violence and injuries
- 4. Provide essential health services
- 5. Minimize exposure to health risk factors
- 6. Strengthen collaboration with health-related sectors

#### Sector Objectives

The sector has the following key objectives;

- > To increase access and quality of curative and rehabilitative services
- > To increase access and utilization of preventive and Promotive health services
- > To enhance administration and support services for health service delivery

# Table 15: Sector Strategic Priorities

Sector Priorities	Strategies			
To increase access and	Strengthen ambulance, emergency and referral services			
quality of curative and rehabilitative services	Enhance Rehabilitative and palliative services (horse piece, physiotherapy and occupational therapy units)			
	Strengthen diagnostic, imaging, lab and pathology services in health centers and hospitals			
	strengthen mental health services at referral hospitals			
	Strengthen human resource capacity and equipment on specialized services(renal, radiology and imaging, pathology, lab, dental, eye, orthopedic)			
	Strengthen accident and emergency services in hospitals			
	Strengthen all hospitals to meet national standards of quality			
	Rehabilitation, refurbishment, completion and expansion of existing hospital and primary care facilities			
To increase access and utilization of preventive and	Strengthen sanitation and hygiene at all healthcare facilities, communities, public places and institutions.			
Promotive health services	Strengthen prevention, control, care and treatment of HIV, TB, Malaria, and other infectious diseases			
	strengthen capacity for environmental health, food safety, vector and vermin control, disease surveillance, Health promotion, Jigger control, school health, NTDs and water safety services			
	Increase access to and utilization of immunization and vaccination services (routine childhood vaccines, HPV vaccine for girls, maternal vaccinations and adult/emergency vaccinations - C19)			
	Enhance integration, linkages and functionality of community health services			
	strengthen PHC through primary health care networks			
	Enhance capacity to engage with other sectors on social, environmental, economic and political determinants of health(Strengthen Multi-sectoral linkages collaboration and coordination)			
	Scale up the coverage and access to high impact nutrition interventions			

Sector Priorities	Strategies
	and initiatives
	Improve the quality of maternal and reproductive health services (supervision, OJT, mentorship and feedback), Strengthen and maintain heightened focus on Newborn Health services at health facility and community levels (strengthen evidence-based newborn health packages - ENAP) and Strengthen implementation of adolescent and youth health services
	Scale up the coverage and quality of integrated child health interventions (iCCM, IMNCI, ETAT+)
	Rehabilitation, refurbishment, completion and expansion of existing hospital and primary care facilities
To enhance administration and support services for health service delivery	Strengthen HRH management and development (recruitment, training & skills enhancement, rationalization/re-distribution, performance monitoring and motivation)
	Advocate for financial and procurement autonomy of the County referral hospital and the 12 sub county hospitals
	Develop and implement county level policies, legal frameworks/ regulations, manuals and SOPs to support healthcare delivery and Strengthen evidence-based health sector planning and budgeting (support development of strategic and sectoral plans, investment cases, annual work plans)
	Digitalization and upgrade of medical and health records system to EMR for inpatient and outpatient services and Strengthen HMIS and Monitoring and Evaluation unit
	Plan, procure, distribute, monitor and report on health products and technologies needed for essential health services
	Promote health insurance uptake and support social health insurance for vulnerable populations
	Establish satellite blood transfusion services
	Strengthen transport and logistics capacity biomedical engineering units)

# Table 49: Key sector stakeholders

Stakeholder	Roles and Responsibilities
MOH (National Government)	Development of policies and capacity building
Ministry of Education	School health

PMI Measure Malaria	Malaria Data Quality
BREAKTHROUGH ACTION KENYA	Malaria interventions
IMPACT MALARIA	Malaria Interventions – Case management, Capacity building, research
Dumisha AFYA	HIV care, capacity building & human capital management, COVID 19 Management and response
Fred Hollows	Eye care, health systems strengthening
PS Kenya	Malaria and reproductive, Maternal & neonatal child health
HP +	Health Financing
World Health Organization	Health Policy standardizations and interventions
APDK	Rehabilitation services
Living Goods	Integrated Community case management
NASCOP	HIV care and management, HIV policy and implementation
GIS	Surveillance, capacity building, defaulter tracing, surveillance data management, COVID 19 management
Global Fund/AMREF/PSK	Community Case Management, Management of Malaria and School Health

Stakeholder	Roles and Responsibilities
Community Empowerment and Development Centre (Community Based Organization)	Budget advocacy
USAID-Western Kenya Sanitation Project	Sanitation Interventions
Care Kenya	Sanitation interventions (Bunyala Sub County Only)
Triggerise	Reproductive Health
CEBA-Champion, Evidence Based Advocacy	Advocacy for PHC, RMNCAH and Nutrition
IRDO-Impact Research and Development Organization	Gender Based Violence/HIV
Organization	ТВ
Collaboration Centre for Gender and Development	Gender equality and discrimination, and Gender rights
REEP (CBO)	Gender Based Violence
OGRA Foundation	Gender Based Violence
KEMRI	Research
Interior coordination & Security Department	Security and coordination of programmes
NEMA	Environmental conservation
Department of Agriculture	Agri Nutrition and food security
Education Department	School health, adolescent health & sanitation
Water Department	Sanitation and water supply
Social Services Department	Child protection, social security
Alupe University	Training

#### Sector Programmes

The sector implements its mandate under three programmes namely; Curative Health Services mandated with Provision of Primary Health care, provision of clinical services, management of health facilities and pharmacies, diagnostic services including radiology and laboratory services, provision of nursing services, provision of rehabilitative services among others; Preventive and Promotive Health Services mandated to undertake health promotion and education activities, provide technical advice on Promotive and preventive health, campaign and creation of awareness on diseases of public interest, provision of community health services through community strategy, disease surveillance and investigation, Inspection of premises, institutions and finally Universal Health Coverage mandated with

ensuring access to health services activities by all residents, improving quality of services and ensuring affordability of health services.

Sub Programme	Key Output	Key Performance Indicators	Baseline	Planned Trget	Resource Requireme nt (Ksh) 'Mil'	Projects Estimate	
					FY 2024/25	FY 2025/26	FY 2026/27

		programs	Poor health condition among school going children due to worms' infestation	
Preventive and Promotive Health Services	Agriculture	Nutrition and food security	Malnutrition i.e Stunting Underweight Wasting	Provision of nutritional supplements like vitamin A for infants and iron folates for pregnant women Procurement of food supplements and rations to identified vulnerable households Sensitization on balance diet consumption and healthy feeding habits
General Health Sector Support Services	ICT	Automation and connectivity of all County health facilities.	Inefficiency of the manual record system Poor network connectivity	Digitalization of health facilities through EMR Provision of reliable network connectivity

## 3.1.10. The Governance and Public Service Management

#### Sector Overview

The sector comprises of the Governorship and Public Service Administration and Gender Affairs.

#### Vision

To be a benchmark for high performing, dynamic and ethical public service

### Mission

To facilitate a safe environment for an effective and productive work force that guarantees personal growth and sustainable development.

#### Sector Goal

To spearhead policy formulation; promotion of the rule of law to enhance order; resource mobilization; coordination and supervision of effective and efficient public service delivery;

provide strategic leadership and guidance to the public service, facilitate development of human resource, enhance and sustain gender resilience, swift response to critical community needs during disaster occurrences; publicity, branding and public participation.

## Sector Objectives

- > To enhance service delivery to the citizens
- > To strengthen disaster preparedness, mitigation and response.
- > To strengthen Information dissemination and Publicity
- > To enhance compliance to county laws

## Table 52: Sector Strategic Priorities

Sector Priorities	Strategies/interventions
To improve access to public service	
	Improve infrastructure development up to the ward levels
To strengthen disaster preparedness, mitigation and response.	Strengthen disaster risk management and preparedness
To strengthen information dissemination and publicity	Strengthen communication channels and engagement with the public
Strengthen enforcement	Strengthen enforcement of public laws/policies

## Table 53: Key sector stakeholders

Name of Stakeholder	Interest	Roles and Obligations
Save the Children	Child wellbeing, community	Funding Health/Nutrition Programs
	development, governance	
	structures strengthening and	
	humanitarian response	
Ministry of Education	Education	Conditional funding to education
(National Government)		infrastructure (Vocational Training
		institutions) and Capitation
Evidence Action	Water	Treatment of water by providing
		chlorine
Living Goods	Health	Provide drugs to children (Age 1-5yrs)
WETEC(Western)	Advocacy	GBV

## 4.2. Financial and Economic Environment

## 4.2.1. County's is Response to Financial and Economic Constraints

The priorities outlined in this CADP 2024-25 are consistent with the aspirations of Kenya Vision 2030, The Bottom up Economic Transformation Agenda, the Governor's Manifesto and The County Integrated Development Plan 2023-2027. According to African Development Bank Group Kenya's GDP is Projected to 6.0% in 2024, driven by services and household consumption. Inflation is projected to rise to 5.9% in 2024, driven by food and energy inflation. Monetary policy is expected to remain tight. The fiscal deficit is expected to narrow to 5.4% in 2024, in line with the fiscal consolidation path. The current account deficit is projected to narrow to 5.0% in 2024, attributable to a recovery in global demand. The outlook is subject to considerable risks, including the effects of a prolongment of Russia's invasion of Ukraine on commodity prices, tight global financing, drought, and slow global economic recovery. Possible risk mitigation measures include diversifying exports and market destinations, enhancing domestic resource mobilization, deepening financial sector reforms, and accelerating structural reforms. The county will therefore put strategic measures to mitigate the anticipated conditions. These strategic measures will include; partnering with other stakeholders in implementation of projects and programmes, enhancing own source revenue, implement change management strategy and provide employment opportunities through implementation of projects and programmes. The county will also implement the policy shift that directs priority to be given to completion of ongoing projects and ensure operationalization of existing projects.

The county expects to finance its priority areas from the National Government exchequer, support from development partners and own source revenue.

To achieve its objective, the county government has responded by formulating programmes aimed at improving the living standards of people and in line with sustainable development goals (SDGs). These Programs include;

**Agriculture** - The County will seek to make agriculture a rewarding venture by promotion of Farming of Edible oil Crops such as ; Soya Beans ,Groundnuts ,Sesame Sunflower and Hybrid Cotton Seed. Orphan crops such as millet, sorghum, cassava, simsim and sweet potato will also be promoted to help reduce the food poverty index. Enhancement of agribusiness, value addition besides encouraging and supporting the youth to effectively participate in agricultural activities will also contribute in making agriculture a rewarding venture. SMART agricultural practices will be embraced to increase production and productivity. Additionally, apiculture, dairy farming, fish farming and poultry

farming will be promoted for income generation and nutrition purposes. The County will also promote value chain through cooperatives.

**Promotion of Trade and Enterprise** The County Government will adopt the following strategies: promote the development of cottage industries and eco lodges, enhance Trade enterprise fund by providing trade loans to small medium enterprise, install solar lighting in all markets to promote a twenty four hour economy, establish market development committees and improve market infrastructure and sanitation .The development of the Trans-shipment market at Busia town for example has been instrumental in revamping of the business activities across the county, lastly the County Government has initiated the process of developing Busia aggregated industrial park at NASEWA for carrying out integrated manufacturing activities including research and development by providing plots or sheds and common (shared) facilities within its precincts

**Infrastructure development**- Upgrading of key roads to bitumen standards, opening up of rural access roads, routine road maintenance, installation of high mast flood lights at various strategic positions; improvement of water and sanitation services, development of ECDE, TVET and health infrastructure will continue to be pursued. The County Government will also seek partnership with ICT sub-sector players to ensure that it lays down the infrastructure for high speed internet connectivity in the county.

Improved health services and sanitation- To improve on patient care and reduction of maternal mortality, the health sector seeks to enhance provision of ambulance services, maternal Child health programmes, supply of drugs and commodities and construction of health facilities across the county. Clean ,Safe Water and Secure Environment for Sustainable Development -To improve access to clean ,safe water, protect Environment and sustainably increase food production through irrigation and Drainage the county seeks to Enhance water production ,Increase pipeline extension, Construct Sewerage infrastructure, Connect households and facilities to sewer line, Development of water quality surveillance infrastructure, Enhance forest/tree cover and Establish Conservancies botanical gardens and green spaces additionally More efforts will also be put to ensure every household has indigenous bamboo and non-indigenous fruit trees.

**Social support programmes**; Expansion of County bursaries and Governor's scholarship programmes for needy students, promotion of sports, talent and culture, setting up a social safety fund to cater for the vulnerable groups in the county and create conducive environment for shelter improvement programme.

# CHAPTER FIVE: MONITORING AND EVALUATION

## 5.1. Overview

This chapter discusses the County Monitoring and Evaluation Framework. It also explains how projects and programmes to be implemented during the plan period will be monitored and evaluated and further outlines verifiable indicators that will be used to measure the progress of implementation of programmes and projects. It shows the proposed monitoring and evaluation structure to be used in detailing the projects and programmes and implementation agencies as well as selected county monitoring tools and indicators.

## 5.1.1. Introduction

The County monitoring and evaluation unit is anchored on Busia County Monitoring and Evaluation policy which guides implementation of the County Integrated Monitoring and Evaluation System (CIMES). The policy was adopted by the County Assembly and plans are underway to fully operationalize it. The implementation of policy will be managed by M&E Unit under the County Planning Directorate, Finance & Economic Planning Department; however, for the implementation to be successful commitment and the active support of all stakeholders will be required.

The overarching goal of the CIMES is to: provide the County with reliable mechanisms to measure progress towards county development goals as well as the efficiency and effectiveness of programmes and policies; provide the County with the needed policy implementation feedback to efficiently allocate its resources over time; set the basis for a transparent process by which the County and stakeholders can undertake a shared appraisal of results; and create smooth release of external support, including budgetary support.

## 5.1.2. Monitoring

Monitoring is systematic and routine collection of information from projects and programmes. Monitoring serves the following purposes:

- > Learning from experience and practices so as to ensure improvement in future;
- > Accountability of the resources used in a project/programme and results obtained;
- Providing implementers of a project/programme the ability to make informed decisions in future; and,
- > Promoting empowerment of beneficiaries.

It involves checking projects/programmes progress against plans and information gathered is used for evaluation. Results, processes and experiences are documented and used as the basis for steering decision making and review processes.

The Monitoring and Evaluation Unit in the directorate of Economic Planning will monitor progress of implementation of projects and programmes. The unit will carry out quarterly monitoring and evaluation of the progress of implementation of planned projects and prepare reports for submission to relevant personnel for action.

After preparation of the monitoring report, there shall be review meetings to assess the report and map a way forward. This will keep the plans' activities and outputs on track during implementation, and enable the relevant personnel to identify and take necessary actions to address any emerging issues.

## 5.1.3. Evaluation

Evaluation entails checking the impacts the project/Programme activities has had on the community. It builds on the monitoring process by identifying the level of short to medium-term outcomes and long-term impacts achieved; the intended and unintended effects of these achievements; and approaches that are working well and those that do not work well.

The evaluation process will be done at the end of the plan period to ascertain the level of implementation of the Programmes and achievement of the plan objectives. This will involve checking on appropriateness, effectiveness, efficiency, lessons learnt and also provide feedback.

# 5.1.4. Data Collection, Analysis and Reporting

This section provides the main methods and tools that will be used for data collection, archiving, analysis and reporting arrangements in line with the National M&E Norms and Standards. These include development of Indicator Handbook, standard reporting templates based on the County Annual Progress Report Guidelines. The County Government will continue to integrate technology in M&E through use of e-CIMES.

In monitoring, policy, programme and project implementers will be expected to systematically collect qualitative and quantitative data on progress of implementation against planned targets. The data will provide implementers and other stakeholders indications on the extent of progress made towards achieving the set objectives. Monitoring processes will be guided by the following:

- Indicators identification;
- > Targets set;

- ➢ Data sources;
- Frequency of data collection;
- Responsibility for data collection;
- Data analysis and use; and,
- > Information products, Reporting and Dissemination.

Monitoring will be conducted for policies, programmes and projects at all administrative levels at the national and county levels. At the project level, monitoring will focus on inputs, processes, outputs and progress toward achieving the desired objectives and results. At the programme level, monitoring will focus on assessing the effects of various interventions against set objectives. Consequently, monitoring within the county will focus on assessment of the progress made towards achieving sectoral development outcomes. It will also focus on systematic checking conditions/sets of vulnerable and/or special identified groups as per the CIDP. Policy monitoring will involve gathering evidence on the implementation and outputs of policies during implementation and use findings to influence the future causes of actions and decisions.

The State and Non-state actors within Busia County will be required to submit timely and accurate progress reports of the policies, programmes and projects in line with approved reporting standards, formats and frequency. MEU shall collaborate with the departments, agencies and non-state actors to design formats for data collection, analysis and reporting. MEU shall, therefore as a priority, determine the reporting requirements for production of departmental M&E Reports on Annual Work Plans and the County Annual Monitoring and Evaluation Reports and any other relevant impact reports as may be necessary.

# 5.1.5. M&E Indicators

Various indicators have been identified across departments relating to the overall strategic objectives of the CIDP and the ADP. They will enable monitoring of activities of the projects and programmes being implemented and provide information on whether the aims are being met by comparing the baseline and targets for previous and current years.

# 5.1.6. Institutional framework adopted to monitor the programmes

The County Monitoring and Evaluation structure as proposed in the policy consist of the following;

# 5.1.7. Monitoring and Evaluation Directorate (MED)

This is a section in the Economic Planning Unit, Department of Finance and Economic Planning. MED, in collaboration with a designated officer for M&E from the National Government at the County level, are responsible for all monitoring and evaluation activities and M&E reports generated through CIMES.

## 5.1.8. County Assembly

In relation to M& E, the County assembly scrutinizes departments' strategic plans to ensure they are in compliance with County priorities. They also approve County Development Plans and Budgets including M&E plans. They further receive annual reports on the implementation status of the county policies and plans prepared by MED through the Governor for validation and approval.

### 5.1.9. The County Intergovernmental Forum

They coordinate Intergovernmental functions, receive annual reports prepared by MED and harmonize reports by all state and non-state actors.

## 5.1.10. The County Monitoring and Evaluation Committee (COMEC)

This is the highest policy advisory body under the CIMES institutional arrangements chaired by the County Secretary and comprising the Chief Officers, MED secretariat, the County Commissioner and ex official members from National Government and CBOs/NGOs. Its mandated to validate and approve the County M&E documents including: M&E plans, progress reports, Indicator handbook, M&E standards and guidelines among others before recommending them for use and/or forwarding to the County assembly for debating and adoption depending on the document at hand.

## 5.1.11. The Technical Oversight Committee (TOC)

The Committee is chaired by the Chief Officer Economic Planning and membership includes the representatives of heads of County departments and technical people from stakeholders. The secretary and convener is the head of County M & E unit

## 5.1.12. Sector M&E Committees (SMECs)

This is to be established in each sector to collect information and prepare Sectoral M&E plans and progress reports. SMEC shall also be responsible for setting sectoral M&E indicators and conducting Sectoral M&E

## 5.1.13.Sub County M&E Committees (SUB-COMEC)

This committee is chaired by the Sub-County Administrator and the secretary is the officer in charge of Planning at the Sub-county level. The convener is the Sub-County Administrator. The membership

comprises of the Sub-county heads of departments and the Committee is in charge of coordinating M& E activities at the Sub-county level.

## Ward M&E Committees (WaMEC)

The committee is chaired by the Ward Administrator and the secretary is the officer in charge of planning at the Sub-county level or his/her representative. The convener is the Ward Administrator. The membership comprises of the ward heads of departments and the Committee is in charge of coordinating M & E activities at the ward level.

## 5.1.14. Dissemination and Feedback Mechanism

The County Government will disseminate, get feedback, engage citizens in the M&E process as well as reporting and learning. Specific means of communicating M&E information based on unique needs of various stakeholders will be identified. Horizontal reporting within the county, shall involve heads of departments, Agencies and Non-state actors. These officials shall present quarterly reports on programmes and projects under implementation to COMEC. Non-State actors who include the Civil Society Organizations, Private Sector Organizations, philanthropies & or Foundations, Faith Based and Community Based Organizations shall report through their respective sectors.

The Sub ~ County M&E Reports shall be forwarded to MEU for consolidation into the county reports. Consequently, the consolidated county reports shall be shared with the stakeholders. MEU will advise on actions to be taken, including evaluations of projects and programmes to ascertain if they are meeting the intended objectives. The COMEC shall send consolidated reports to the County Intergovernmental Forum and share them with MED within the State Department for Economic Planning.

	utcome: Enhance				1			1.007	
Health management Information system and M &E	strengthened Health Information, Data, M&E	No of health facilities digitalized (full suite of EMR)	Number	0	1	Depart ment of Health and Sanitati on	Quarterl y	M&E Unit	Quarterl y
		No of functional Information repositories established	Number	0	1	Depart ment of Health and Sanitati on	Quarterl y	M&E Unit	Quarterl y

Blood and Tissue Transplant Services	Improved access to safe blood and blood products	Number of transfusing sites established	Number		1	Depart ment of Health and Sanitati on	Quarterl y	M&E Unit	Quarterl y
Governorship	ame: Disaster risk	management							
0	strengthen disaste	•	mitigation	and respo	nse				
	roved awareness		, 0	-					
Sub Programme	Output	Performanc e indicator(s)	Definiti on (how is it calculat ed)	Baseline	Targets	Data Source	Frequenc y of monitori ng	Respon sible agency	Reportin g frequenc y
Disaster preparedness	Improved response time to disaster occurrence	Number of disaster managemen t center established and equipped	Number	2	2	Governo rship	Quarterl y	M&E	Quarter1 y
		Number of fire stations established	Number	0	1	Governo rship	Quarter1 y	M&E	Quarterl y
		Number of water hydrants and reservoir procured	Number	7	10	Governo rship	Quarterl y	M&E	Quarterl y
	Reduced number of disaster incidences	Number of lightning arrestors installed	Number	10	6	Governo rship	Quarterl y	M&E	Quarter1 y
		Number of rescue boats purchased	Number	1	1	Governo rship	Quarter1 y	M&E	Quarterl y
	Reduced flooding	Number of dams constructed	Number	5	1	Governo rship	Quarterl y	M&E	Quarterl y
		Number of Km's of dyks constructed	Number		5	Governo rship	Quarterl y	M&E	Quarterl y

		Number of civil structures constructed and rehabilitate d	Number	0	5	Governo rship	Quarterl y	M&E	Quarterl y
		Number of km's dredged	Number	50	10	Governo rship	Quarterl y	M&E	Quarterl y
Programme Na	ume: County Com	U	d Publicity			_	I		
Objective: To s	trengthen Inform	nation dissemin	ation and F	ublicity					
Outcome: Stree	ngthened informa	ation dissemina	tion among	g stakehold	ers				
Sub Programme	Output	Performanc e indicator(s)	Definiti on (how is it calculat ed)	Baseline	Targets	Data Source	Frequenc y of monitori ng	Respon sible agency	Reportin 8 frequenc y
Communicati ons channels and engagement with the public	Enhanced information dissemination	Number of Videos/doc umentaries produced and broadcasted	Number	11	3	Governo rship	Quarterl y	M&E	Quarterl y
Programme Na	me: Enforcemen	t and Security							
Objective: To e	nhance compliar	nce to county la	lws						
Outcome: Enha	anced compliance	e to county law	S						
Sub Programme	Output	Performanc e indicator(s)	Definiti on (how is it calculat ed)	Baseline	Targets	Data Source	Frequenc y of monitori ng	Respon sible agency	Reportin g frequenc y
Enforcement of public laws and security	Enhanced Security within the County Installations	Number of metal detectors procured and in use within the County Headquarte rs and the Sub Counties	Number	0	40	Governo rship	Quarterl y	M&E	Quarterl y
-	uman Resource S								
-	nhance Human I		-						
Outcome:Eenh	anced Human Re	source Manage	ement						

Sub Programme	Output	Performanc e indicator(s)	Definiti on (how is it calculat ed)	Baseline	Targets	Data Source	Frequenc y of monitori ng	Respon sible agency	Reportin g frequenc y
Human Resource Management	Offices installed with biometric clocking system	Number of biometric clocking systems installed	Number	0	12	Governo rship	Quarterl y	M&E	Quarter1 y
Programme: G	ender Affairs Pro	grammes							
Programmes	ensure gender equ	-	en's empov	verment is	integrated	into sectora	l policies, pl	anning an	ıd

Enhancing and sustaining gender resilience	Gender based recovery center constructed	Number of gender based recovery center constructed	Number	0	1	Governo rship	Quarterl y	M&E	Quarterl y

## Annex 1: Flagship Projects

Flagship projects- Water, Irrigation and Natural Resources

1 0	Location	,	Description of the project	• •	ame	(Million )	of Funds	Agency
1	Victoria	access to clean and	Port Victoria Sisenye and Rwambua water system	systems,		300		Directorat e of water and Sewerage Services

Name of the project	Project Location	 Description of the project	• •	ame	Estimate d Cost (Million )	of	Lead Agency
			storage capacity, Increased households served with reliable clean and safe water				

## Annex 2: Ward Based Economic Revitalization- Activities and Sub Activities

Ward Based Ed	conomic Revitalization	Annex; Activities and Sub Activi	ities
Programme	Output	Key Activities	Sub Activities
Farmer Resource Organization and management	Output 1.1: Farm level farmer organizations formed and Production and Marketing Infrastructure developed	Activity 1.1.1: Organize the existing farmer groups into ward cooperatives	Value chain Profiling per ward during PICD Profiling of CIGs by value chain during CDDC Formation Staff sensitization meeting on Community Based Farm Assistants (CBFAs) Deification and training of CBFAs Deployment of Technical Managers by Value chain (Extension staff) Training value chain based cooperatives Link the Value Chain based out grower groups/clusters to respective Value chain Aggregation Centers
			Draw Commodity supply agreements between aggregators and the Out growers
		Activity 1.1.2: Establishment of Value chain Based Aggregation Center( Parks)	Establishment of 8 Community Livestock Breeding Center (CLBCs)
			Establishment of 4 Dairy Goats Multiplication Centres (Within CLBCs)
			Construction of 8 Calf Nursery
			Establishment of 4 out grower unit

			Acquisition of hatching equipment (1056 capacity egg incubators) Feedlot Housing Shades Establish of 8 Hay Barns
		1.1.3 Fisheries infrastructure development	Upgrading of training facility Upgrading of hatchery
		1.1.4 Post harvest management and fish processing and value addition	Establish cold chain facilities and processing plant
Production, productivity and profitability of farm resources	Output 2.1: Improved dairy cattle (producing 8Litre/ day from current 2 litres/day), Dairy goats, Beef cattle (weighing 400- 600 kg at	Activity 2.1.1: Cattle selection and Breeding by Artificial Insemination	Cattle Selection and Breeding-Dairy and Beef
	slaughter from		Cattle feeding
	current 150-250 kg) and chicken breeds ( Producing	Activity 2.1.2: Calf Rearing at Calf Nurseries	Calf Rearing at Calf Nurseries
	240 eggs per year from current 30-	Activity 2.1.3: Selection and Breeding of Goats	Goat breeding by Artificial Insemination
	60 eggs and maturing at 4~5 months from 7		Goat breeding by natural breeding & multiplication inbreeding centers
	months from 7 months) produced through Breeding interventions	Activity 2.1.4: Establishment of Hatcheries and Operationalization of existing ones	Operationalization of Existing Chicken Hatchery facilities
	Output 2.2: Feed Access and Feeding management improved for	Activity 2.2.1: Establishment of multiplication fields for Fodder/pasture planting material	Establish fields for multiplication of fodder planting materials
	Livestock and Fish		Distribution of fodder planting material
	Resources		Livestock feeds production
		Activity 2.2.2: Placement of bulls/steer and Fattening	Fattening of bulls and steers

	Output 2.3 :Fish and Animal Health management improved	Activity 2.3.1: Disease Surveillance and Control (Livestock Vaccination) Campaigns	Livestock Vaccination
		Activity 2.3.2: Conduct Laboratory Diagnostic services	Renovation works and Operationalization of laboratory
		Activity 2.3.3: Vector Control	Establishment/Operationalization of vector control facilities
	Output 2.4: Improved crop production and	Activity 2.4.1 Land preparation and soil amendment	Ploughing
	productivity		Soil PH testing, Liming and fertilizer use
		Activity 2.4.2 Pest and disease management	Application of pesticides
			Crop insurance
	Output 2.5		Establish one aqua park of 100 fish ponds
	Increased fish production and productivity	Activity 2.5.1 Fisheries and Aquaculture development	Establish cluster production ponds (earthen ponds, liner pond and backyard ponds)
			Production of fingerlings
			Production of fish feeds
			Fabrication and installation of cages
			Dam fisheries development
	Output 3.1: Agribusiness incubators established to	Activity 3.1.1: Milk processing for ECD Nutrition Support	Milk Collection, Transportation & Processing
	support to startup "agro-preneurs		Establishment and Equipping of incubation Hub
		Activity 3.1.4 : Leather Tanning and Cottage Industries	Mapping of leather artisans engaged in footwear and leather goods manufacture, Training of trainers on Leather Value Chain and Provision of appropriate tools.
Policy and Legislative framework	Output 4.1:Extension, Research and Development of Farm Resources Enhanced	Activity 4.1.1 Conduct Technical Capacity needs Assessment	Conduct Capacity Needs Assessment

	Activity 4.1.2 Refreshers Trainings on Technical skill gaps	Training Livestock, Fisheries, Veterinary & Agriculture Resource Managers on Different Skill gaps identified on Capacity Needs Assessment
	Activity 4.1.3 Development of Information, Education & Communication Materials (IEC material)	Development of value chain specific information, education and communication materials (Livestock, fisheries and Agriculture)
Output 5.1:Project efficiently coordinated and Managed	Activity 5.1.1 : Value chain enterprises Development Plans (Farm to Fork)	Develop Value chain specific Enterprise Development Plans, input access strategy for the WMCS and Develop a County wide staggered and synchronized production and Marketing Calendar/Plan
	Activity 5.1.2 Development of Project document (Project Design Report; draft Breeding plans, Training Aids, project agreements and memoranda, Development of TOR for service providers, farmer Identification criteria, Cow selection criteria	Development of Project Design report and project agreements/memoranda
		Development of breeding plans, training aids, farmer and cow selection criteria
	Activity 5.1.3:Project Sensitization meetings (Sensitization of Senior management and County Assembly Agriculture Committee; sub county heads and ward staff; TVCs principles and VTCs managers	sensitize Agriculture committee and Senior management
		Meeting to sensitize Sub County heads, TVCs Principals and VTCs Managers
Output 5.2 Agricultural Sector Policies Reviewed, Developed and regulations enacted	Activity 5.2.1 Review of Agricultural Policy Environment and Drafting of relevant Sector Policies and Enactment of relevant laws	Review existing policies and the gaps & drafting relevant and priority policies
		Public participation

Output 5.3: Project Monitoring & Evaluation effectively executed	Activity 5.3.1 Baseline Survey	Carry out data collection
	Activity 5.3.2 Development of	baseline report preparation and develop
	Monitoring and Evaluation	M&E framework
	Framework
